Message Boards	12	Friday Orals.....	55
Coffee Breaks	12	Author Index	60
Meeting Agenda	10-11	Poster Hall Map	Inside Back Cover
Receipts and Letters of Participation	12		

WATER CONNECTS!

Water connects everything and everyone! Water transcends and connects all spheres: the lithosphere, atmosphere, and biosphere – from fresh to salty, from microscopic to macroscopic. Water connects us to each other and to resources – across cultures and society, across politics and international boundaries. However, these elements are too frequently studied in isolation. This meeting will encourage you to bring your knowledge, curiosity, and creativity to connect with each other and to share your passion for water!

VICTORIA CONFERENCE CENTRE ART

To honor ASLO and to highlight this meeting's theme, selected artwork from local galleries is on display throughout the Victoria Conference Centre and Empress Hotel. Please take some time to study and appreciate these incredible works of art.

ASSOCIATION FOR THE SCIENCES OF LIMNOLOGY AND OCEANOGRAPHY

The purpose of ASLO is to foster a diverse, international scientific community that creates, integrates and communicates knowledge across the full spectrum of aquatic sciences, advances public awareness and education about aquatic resources and research, and promotes scientific stewardship of aquatic resources for the public interest. Its products and activities are directed toward these ends.

For more than 50 years, ASLO has been the leading professional organization for researchers and educators in the field of aquatic science. ASLO traces its roots to the Limnological Society of America (LSA), which was established in 1936 to further interest and research in limnological science. While the LSA had members working in both freshwater and marine systems, the name did not reflect this diversity until 1948 when the Oceanographic Society of the Pacific merged with the LSA to become the American Society of Limnology and Oceanography. ASLO is incorporated as a non-stock (non-profit) corporation in the State of Wisconsin. Membership in the society is presently more than 3,800 members. Members are drawn from 58 countries including the United States, and more than a quarter of the members reside outside the U.S. In 2011, ASLO members voted to change its name to the Association for the Sciences of Limnology and Oceanography, reflecting the increasingly international nature of the society.

ABOUT THE 2018 SUMMER MEETING LOGO

The 2018 ASLO summer meeting logo was designed by Doug Lafortune, a well-known Coast Salish artist of Salish ancestry, currently living on Vancouver Island. The logo is intended to integrate the land-water-air interface through the images as well as the connectivity of different organisms across scales. The center of

the logo, where the hole of the whorl is located, represents the sun and symbolizes growth, energy, and life. In Coast Salish culture, power and spirituality belong to the unseen. It includes images of aquatic microscopic life with such features designed into the logo, including a diatom, rotifer and copepod, likely their first depictions in Salish tradition.

Other images are classically found in Salish art. The salmon, which connects rivers to the sea and back again, symbolizes prosperity, the power of instinct and intuition. They are the providers and givers of life. Images of salmon in pairs are a sign of good luck. The orca is the lord of the ocean; it carries the history of the world. It symbolizes communication, intuition, harmony and goodness. The eagle, connecting air, water and land, is the divine spirit closest to the Great Spirit. It has the highest perception and symbolizes great vision, strength, the ability to go further, with the capacity to bridge worlds. The eagle is a leader, providing clarity and truth.

The human emerging from the clam is a symbol that all life originally comes from water. The human figure with head and arms rising out of the ocean waves is meant to invite you to the meeting and the uplifted arms and hands are the traditional Coast Salish welcome gesture. All the images you will see in West Coast First Nation art have powerful meanings, with deep connections to place in the natural and spiritual worlds.

The photo used to highlight our logo was also carefully selected. It is to remind us to maintain our child-like curiosity as we pursue our quest to understand water. To remind us of the privilege and how much fun it is to play in water with our friends! It is also a reminder of the need to protect water and aquatic resources now and for future generations.

THANK YOU TO THE GORDON AND BETTY MOORE FOUNDATION

GORDON AND BETTY
MOORE
FOUNDATION

ASLO thanks the Gordon and Betty Moore Foundation for supporting the ASLO 2018 Meeting. For more information about the foundation, please go to: <https://www.moore.org/>

ASLO STAFF

Teresa Curto, Executive Director

Robert Howarth, Editor-in-Chief, *Limnology and Oceanography*

Paul Kemp, Web Editor and Editor-in-Chief, *Limnology and Oceanography: Methods*

Chris Filstrup, Deputy Editor, *Limnology and Oceanography Bulletin*

Helen Schneider Lemay, Business Manager

Patricia Soranno, Editor-in-Chief, *Limnology and Oceanography Letters*

Adrienne Sponberg, Co-Editor, *Limnology and Oceanography Bulletin* and Director of Communications and Science

Maggie Xenopoulos, Deputy Editor, *Limnology and Oceanography*

INCLUDED IN THIS PROGRAM

This program is produced for reference on site at the meeting. It contains the most up-to-date program information. Changes received after the printing of the program can be found on the conference web site.

WEB SITE AND SOCIAL MEDIA

We encourage you to use the meeting web site for all current information and to navigate the meeting.

Facebook: facebook.com/ASLO.org

Twitter: @ASLOMtg (#ASLOMtg)

ASLO RECORDING POLICY

Please! No recording of individual talks or sessions. This includes the opening plenary session as well as the poster and oral presentations that will take place throughout the week. Additionally, audio taping, videotaping, or photographing presentations is not allowed at the meeting. Thank you for your cooperation!

OVERVIEW OF THE SCIENTIFIC PROGRAM SCHEDULE

The meeting will formally start on Sunday evening at 18:00 with a brief welcome by the conference co-chairs, First Nations blessing ceremony, and opening speaker. A mixer reception will follow. Each day of the week (Monday through Friday) will begin with concurrent sessions in various rooms at the conference center. There will be a break following the concurrent sessions that will allow attendees time to network with one another before moving into the plenary session on the 2nd floor of the Victoria Conference Centre. Plenary sessions will include award acceptance talks and brief presentations or “flash talks” by various artists who will be participating in a session later in the week. Two-hour poster sessions and receptions are scheduled Tuesday and Thursday afternoons. This schedule maximizes the time for poster presentations. Posters will be up all week for viewing. Friday’s schedule will include a closing plenary session followed by a closing mixer.

PLENARY SESSIONS

OPENING PLENARY SESSION: WELCOME, BLESSING CEREMONY AND OPENING SPEAKER

Sunday, 10 June 2018, 18:00 – 19:00

Carson Hall – Victoria Conference Centre

WELCOME BY ASLO PRESIDENT

Linda Duguay, Director of the University of Southern California (USC) Sea Grant Program and Director of Research for the Wrigley Institute for Environmental Studies at USC, Los Angeles, California, USA

WELCOME BY MEETING CO-CHAIRS

Jennifer Cherrier, Professor and Department Chairperson, Earth and Environmental Sciences, Brooklyn College - CUNY, Brooklyn, New York, USA

Roxane Maranger, Internal Director, GRIL, Department of Biological Sciences, University of Montreal, Montreal, Quebec, Canada

BLESSING CEREMONY

The First Nations Blessing Ceremony is a cultural ceremony that has been used for many generations to begin meetings and events in Victoria. This protocol will be honored at the start of the ASLO Summer Meeting. Coast Salish First Nations use the blessing to ask for safe journey and to ask for protection on land and water. The blessing also acknowledges the ancestors that lived here in the past on the traditional lands of the Lekwungen people.

OPENING SPEAKER

Sybil Seitzinger, Executive Director, Pacific Institute for Climate Solutions (PICS) and Professor, School of Environmental Studies, University of Victoria, Victoria, British Columbia, Canada

Opening Presentation: Borders, boundaries, frontiers: Water knows no political, economic, or environmental constraints

Presentation Description: Welcome to beautiful British Columbia. Glaciers to rivers, lakes, wetlands to coasts and oceans—British Columbia has it all. However, virtually all aspects of the physical, biogeochemical and ecosystem dynamics and interactions are, and will increasingly be, affected by climate change, with consequences for ecosystems and people that rely on them. In many ways, British Columbia is a microcosm of many places in the world. Never before has there been such an urgency to understand all aspects of aquatic systems. And there will be many surprises, economic, political and environmental. Developing effective approaches to prepare for those changes needs interdisciplinary engagement by aquatic ecologists, economists, legal scholars, policy analysts, behavioural scientists, cross border negotiators, and many others. “I used to think I knew what interdisciplinary meant. I now realize I had only an inkling of what is needed for understanding and developing climate solutions.”

Biographical Information: Dr. Sybil Seitzinger is the Executive Director of the Pacific Institute for Climate Solutions (PICS), and Professor in the School of Environmental Studies at the University of Victoria. The Pacific Institute for Climate Solutions is a dynamic knowledge network that brings together leading researchers from British Columbia and around the world to study the impacts of climate change and to develop positive approaches to mitigation and adaptation.

Dr. Seitzinger joined PICS from her position as executive director of the International Geosphere-Biosphere Program (IGBP) based in Stockholm, Sweden. Prior to that, she was director of the Rutgers/NOAA Cooperative Marine Education and Research Program and visiting professor at Rutgers University in the US.

Dr. Seitzinger’s work at the IGBP involved facilitating and integrating the work of scientists and researchers across Africa, the Americas, Asia-Pacific and Europe on global environmental change. As a pioneering scientist, her work at Rutgers centered on land-atmosphere-ocean biogeochemistry, with a focus on changes in the global nitrogen cycle and how humans are affecting it. Her research spans a range of spatial scales from molecular level organic chemical characterization to models at global scales.

Dr. Seitzinger holds a PhD in biological oceanography from the University of Rhode Island, is an elected member of the American Academy of Arts and Sciences, and has been awarded an honorary PhD from Utrecht University in the Netherlands. She served as president of the American Society of Limnology and Oceanography from 2006-2010. She is highly cited, with more than 130 peer-reviewed publications to her credit.

MONDAY PLENARY SESSION

Monday, 11 June 2018, 11:00 – 12:30

Carson Hall – Victoria Conference Centre

PLENARY PRESENTER

Phil Levin, Professor of Practice, School of Environmental and Forest Sciences, University of Washington, and Lead Scientist, The Nature Conservancy, Seattle, Washington, USA

Plenary Presentation: Conservation in the Face of Ocean Tipping Points

Presentation Description: Forage fish are

at the heart of many marine food webs. Eaten by many species, including people, they are economically, ecologically, and culturally important. Their numbers are also notoriously variable. In the Northeast Pacific, herring have been central to the social, cultural, and economic relations of coastal indigenous communities for many thousands of years⁷, and many communities seek to continue their traditional fisheries for herring and herring roe on kelp. Industrial seine and gillnet fishing of adult fish for their roe has also contributed to the economy and livelihoods of many communities across the Northwest Coast. With this socio-cultural centrality comes complexity for management. This talk will explore how marine species, and the human communities that depend upon them respond to a suite of pressures, and how we can best predict tipping points in the socio-ecological system. I highlight how access, power relationships and perspectives on sustainability create conflict, but also reveal a way forward.

Biographical Information: Phillip Levin is the lead scientist of The Nature Conservancy, Washington and a professor-of-practice in the School of Environmental and Forest Sciences at the University of Washington. Dr. Levin is a conservation scientist who is interested in bridging the gaps between theory and practice in conservation, and developing modeling and statistical approaches to inform conservation and management of ecosystems. The focus of his current work is developing interdisciplinary tools to inform conservation of marine, aquatic and terrestrial ecosystems and the communities that depend on them. Prior to joining the Nature Conservancy and University of Washington, he was the Director of Conservation Biology and a Senior Scientist at NOAA Fisheries' Northwest Fisheries Science Center in Seattle, WA, USA. Levin served as the scientific lead of NOAA's Integrated Ecosystem Assessment efforts in the California Current Large Marine Ecosystem and Puget Sound. During this work, he has led the development of new analytical tools for characterizing ecosystem health and forecasting the cumulative effects of coastal zone management and climate change on ecosystems. Dr. Levin received the Department of Commerce Silver Award and NOAA's Bronze Medal for his work on marine ecosystems, and the Seattle Aquarium's Conservation Research Award for his work in Puget Sound. He has published over 150 scientific papers in peer-

reviewed journals, book chapters and technical reports, and edited the recently published book, "Conservation of the Anthropocene Ocean: interdisciplinary approaches for nature and people". His work has been featured in such news outlets as NPR, PBS, the BBC, MSNBC, The Economist, among others. Levin recently served as President of the Western Society of Naturalists, and has served on numerous editorial boards and scientific advisory panels. Levin received his Ph.D. in zoology from the University of New Hampshire in 1993 and was a postdoctoral fellow at the University of North Carolina.

2018 YENTSCH-SCHINDLER EARLY CAREER AWARD

Cayelan Carey, Assistant Professor, Biological Sciences, Virginia Tech, Blacksburg, Virginia, USA

Yentsch-Schindler Early Career Award honors an early-career scientist for outstanding and balanced contributions to research, science training, and broader societal issues such as resource management, conservation, policy, and public education. The 2018 recipient is Cayelan Carey for outstanding and balanced contributions to research on the causes and effects of cyanobacterial blooms, science training, and broader societal issues such as lake and reservoir management, drinking water policy, and public education.

management, conservation, policy, and public education. The 2018 recipient is Cayelan Carey for outstanding and balanced contributions to research on the causes and effects of cyanobacterial blooms, science training, and broader societal issues such as lake and reservoir management, drinking water policy, and public education.

TUESDAY PLENARY SESSION

Tuesday, 12 June 2018, 11:00 – 12:30

Carson Hall – Victoria Conference Centre

PLENARY PRESENTER

Amina I. Pollard, Ecologist, Office of Water, U.S. Environmental Protection Agency, Washington, DC, USA

Plenary Presentation: The promise and potential of national-scale limnology using the U.S. National Lakes Assessment

Presentation Description: Scientific

investigations conducted at different spatial and temporal scales can be complementary. To maximize this potential, we in the scientific community collectively have to work to find connections among approaches, data, and conclusions resulting from studies conducted at different scales. The effort to identify connections includes noting the strengths of different projects and recognizing how this information can be leveraged to develop a more complete understanding. In this presentation Dr. Pollard will discuss three examples that demonstrate how broad, population-scale information can be leveraged to better understand relative condition and change in lakes. She will provide an overview of the U.S. National Lakes Assessment (NLA) project. The NLA is a collaborative, coordinated part-

nership project among States, Tribes, and the U.S. Environmental Protection Agency designed to provide national and regional-scale statistics describing select biological, chemical, physical, human use, and watershed characteristics in lakes. Multiple researchers from state and federal agencies as well as universities have used NLA data from just a few sites to the full national set to test hypotheses about lake ecology and management, but there are also opportunities to consider the perspective that population-level information can bring to aquatic sciences. The first example leverages national-scale data to examine temporal change in nutrient concentration. In conjunction with comparable national streams data, information from NLA has been used to show population-level changes in total phosphorus concentration across the U.S. A second example highlights how population information from different spatial scales can be leveraged to better understand relative condition of lake shoreline habitat. Finally, by connecting an individual lake to the NLA inferences, she will highlight an approach for using population information to provide context for local data. These examples demonstrate how population-scale lake data generated by NLA can be leveraged to inform hypothesis generation, strengthen the case for management activity, and understand phenomenon occurring at local scales in the context of large-scale patterns.

Biographical Information: Amina Pollard is an ecologist working in the Office of Water at the U.S. Environmental Protection Agency. She is a graduate from Lawrence University (B.A., 1995), Wright State University (M.S., 1997), and the University of Wisconsin Madison (Ph.D., 2002). Dr. Pollard leads the U.S. National Lakes Assessment. At the broadest level this survey characterizes the biological, chemical, physical and recreational status of lakes to determine whether their condition is changing over time. She collaborates with scientists and resource managers across the U.S. to implement this survey and to communicate results to diverse audiences. Dr. Pollard's research explores local and regional environmental controls on the biological assemblages in lakes, streams, and wetlands. The third component of Dr. Pollard's career involves working at the interface of science and policy locally, nationally, and internationally (e.g., China, Uruguay).

2018 G. EVELYN HUTCHINSON AWARD

Emily Stanley, Professor, Center for Limnology and Department of Integrative Biology, University of Wisconsin, Madison, Wisconsin, USA

The G. Evelyn Hutchinson Award honors a scientist who has made considerable contributions to knowledge in limnology and oceanography, and

whose future work promises a continuing legacy of scientific excellence. Emily Stanley is the 2018 award winner for her outstanding and synthetic contributions to our understanding of the roles of hydrology and the biogeochemistry of nitrogen and carbon in lake and stream ecology.

WEDNESDAY PLENARY SESSION

Wednesday, 13 June 2018, 11:00 – 12:30

Carson Hall – Victoria Conference Centre

PLENARY PRESENTER

Jonathan W. Moore, Liber-Ero Chair of Coastal Science and Management, and Associate Professor, Simon Fraser University, Burnaby, BC, Canada

Plenary Presentation: Connections and Resilience in Salmon Watersheds

Presentation Description: One pressing challenge that we face is to understand

and conserve Earth's natural ability to cope with change. In this context, Dr. Moore will discuss recent findings from my collaborative research program on the resilience of large salmon watersheds of western Canada. Rivers and their migratory fishes connect headwaters with the ocean. He presents emerging evidence that this river connectivity means that these systems act as natural portfolios that stabilize important processes, from hydrology to fisheries catches. However, these connections also mean that environmental risks can spread up and down river systems. At the controversial nexus of indigenous rights, industrial development, and environmental risk assessment, he will discuss our collaborative research on the estuary of one of the world's great salmon watersheds faced with fossil fuel development. His research revealed the need to align the scale of environmental decision making with the true spatial scale of potential environmental risk. These activities in partnership with First Nations fisheries programs have strengthened his belief in the need and opportunity for the scientific process to better integrate with diverse cultures. Most broadly, there is a need to understand processes of resilience, quantify their limits, and translate this emerging scientific understanding into conservation and management action.

Biographical Information: Jonathan Moore is the Liber-Ero Chair of Coastal Science and Management at Simon Fraser University and is an associate professor. Dr. Moore received his PhD from the University of Washington and his BSc from Carleton College. Prior to Simon Fraser University, he was a professor at University of California and a postdoctoral research fellow at the Northwest Fisheries Science Center with the National Oceanic and Atmospheric Administration. He was recently recognized as a leading emerging scientist in the field of fisheries sciences by the Canadian Fisheries Society (J. C. Stevenson Award) and was a Wilburforce Fellow for conservation science. Dr. Moore's research program focuses on the dynamics of aquatic ecosystems to inform sustainable management with expertise on salmon and their watersheds. His research program uses a combination of intensive field work in partnership with diverse collaborators, syntheses of large data sets, and modeling. His work also aims to bring scientific clarity to controversial environmental decision-making.

2018 RAMÓN MARGALEF AWARD FOR EXCELLENCE IN EDUCATION

Cynthia Hagley, Environmental Quality Extension Educator, Minnesota Sea Grant College Program, Duluth, Minnesota, USA

The Ramón Margalef Award for Excellence in Education honors excellence in teaching and mentoring in the fields

of limnology and oceanography. The 2018 award goes to Cynthia Hagley. She is recognized for her vision and success at developing career-long relationships among scientists and educators, for impacting thousands of students, and for making environmental and aquatic data understandable to non-specialists.

2018 RUTH PATRICK AWARD

Margaret Palmer, Director, National Socio-Environmental Synthesis Center, Annapolis, Maryland, and Distinguished University Professor, University of Maryland, College Park, Maryland, USA

The 2018 Ruth Patrick Award will be accepted on Dr. Palmer's behalf by Kelly

Hondula, Quantitative Researcher and Computer Programmer, National Socio-Environmental Synthesis Center, Annapolis, Maryland, USA.

The Ruth Patrick Award honors scientists who have applied the aquatic sciences towards solving critical environmental problems. Margaret Palmer is the 2018 recipient of the Ruth Patrick Award in recognition for being a champion of solution-driven science for the protection of freshwaters.

THURSDAY PLENARY SESSION

Thursday, 14 June 2018, 11:00 – 12:30

Carson Hall – Victoria Conference Centre

PLENARY PRESENTER

Igor Klein for Claudia Kuenzer, Department of Land Surface, Earth Observation Center (EOC), German Aerospace Center, DLR, Köln, Germany

Plenary Presentation: The Potential of Earth Observation for the Analysis of River Deltas and the Coastal Zone

Presentation Description: The face of our planet is changing at unprecedented speed. Total population grew by 26% between 1992 and 2010, the number of megacities with over 10 million inhabit-

ants more than doubled between 1990 and 2010, and the latest, uncontested climate trends, sea level rise, and sporadic endogenous and exogenous natural hazards aggravate environmental change, as does the constant demand to cope with and adapt to ever changing livelihoods. The major settled river delta areas of our planet are highly dynamic social-ecological systems, which are especially exposed to the impacts of socio-economic development, urbanization, changes in climate, and natural hazards. Although river deltas only contribute 5% to the overall land surface, nearly six hundred million people live in these environments, which combine a variety of appealing locational advantages such as flat topography, fertile alluvial soils, access to sea and freshwater resources, transport hub functions, a rich biodiversity of marine, brackish and inland ecosystems, as well as – often – abundant underground resources of hydrocarbons (oil, gas), and salts. At the same time, these highly dynamic, valuable environments are exposed to a variety of threats. Urban areas, industry, infrastructure, agriculture, and aquaculture all extend into formerly untouched land and disturb and/or replace valuable ecosystems such as wetlands, coastal forests, and marshes. Increasing water, soil, and air pollution accompany this process. Sediment compaction through heavy structures and underground resource extraction adds to a natural subsidence component. The same applies for many coastal areas globally. At present an unrivalled amount of remotely sensed earth observation data is globally available in satellite data archives. Imagery from coarse-, medium-, high-, and highest-resolution optical, multispectral, radar, and thermal infrared sensors is waiting to be exploited to reveal its full potential. The USA and Europe have set the pace in sharing earth observation resources. Along with this current trend of opening numerous satellite data archives worldwide go increasing capabilities to handle and explore big data. Compared to former uni- or bi-temporal mapping endeavors, the current benchmark is the exploitation of remote sensing time series to reveal land surface dynamics at differing spatial-, and temporally-dense scales. The goal of this contribution / talk is to demonstrate this profound potential for large river deltas and coastal areas globally.

Biographical Information for Claudia Kuenzer: Claudia Kuenzer received her PhD in remote sensing from Vienna University of Technology in 2005. She went to the University of Wuerzburg in 2016, and she is currently head of the Department of Land Surface at the Earth Observation Center (EOC) of the German Aerospace Center, DLR. This department with currently 55 scientists, studies and quantifies global environmental change, and, in this context, addresses societal relevant questions. Focus is on the development of information products useful for planning and decision-making purposes based on innovative data analyses methods. A wide range of geoscience topics, employing all types of earth observation sensors (multispectral, hyperspectral, SAR) at various spatial scales (global, regional, national, local) is addressed. Until the end of 2015, Claudia had been head of the group Land Surface Dynamics at DFD of DLR. She has been scientific coordinator of several international, trans-disciplinary geoscience projects mainly focusing on Integrated Water Resources Management, as well as coast related topics. She frequently lectures and has lectured for the Universities of Wuer-

zburg, Germany, Vienna University of Technology, Austria, the Chinese Academy of Sciences, CAS, the Vietnamese Academy of Sciences, VAST, and the European Space Agency, ESA. Claudia also is an appointed Scientific Steering Committee member of Future Earth Coasts under Future Earth, a member of the bureau of the International Society for Digital Earth, ISDE, and member of several journal editorial boards. She has authored and co-authored over 100 SCI journal papers, more than 35 book chapters, over 120 conference contributions, and published three books. Next to applied remote sensing especially in the context of earth observation for the coastal zone, as well land use management and integrated water resources management, her current main research interest is on time series analyses of temporally dense time series of high resolution, as well as on the joint analyses of natural and social sciences data.

Biographical Information for Igor Klein: Igor Klein received his master's degree in physical geography in 2011 from the University of Augsburg. Since then he has been a scientific researcher at the German Remote Sensing Data Center (DFD) at the German Aerospace Center (DLR). He is specialized in geoscientific research based on remote sensing techniques and statistical methods with a focus on global surface water dynamics and land cover changes. He focuses on earth observation approaches using multispectral time series of optical data with different temporal and spatial resolution. Additionally, Klein has experience with airborne laser scanning (LiDAR) and Synthetic Aperture Radiometer (SAR) data. He has been scientifically responsible and coordinating activities of international projects addressing environmental monitoring and assessment as well as land use management. He has contributed to more than 20 scientific publications including 10 SCI journal papers, two book chapters and several international conference contributions. Klein has been reviewing for five SCI journals in the field of earth observation and geosciences including the Nature Journal.

2018 JOHN H. MARTIN AWARD

Robert Howarth, David R. Atkinson
Professor of Ecology and Environmental Biology, Cornell University, Ithaca, New York, USA

ASLO presents the John H. Martin Award to one paper each year that has led to fundamental shifts in research focus and interpretation of a large

body of previous observations. The 2018 John H. Martin Award is for "Regional nitrogen budgets and riverine N & P fluxes for the drainages to the North Atlantic Ocean: Natural and human influences." The 1996 paper established the first estimates of net anthropogenic nitrogen inputs to the coastal oceans thereby fundamentally changing our understanding of the relationship between human activity and nitrogen transport and storage. The award will be presented to lead author Robert Howarth on behalf of study co-authors Gilles Billen, Dennis Swaney, Alan Townsend, Norbert Jaworsky, Kate Lajtha, John Downing,

Ragnar Elmgren, Nina Caraco, Thomas Jordan, Frank Berendse, John Freney, Valery Kudeyarov, Peter Murdoch, and Zhu Zhao-Liang. The paper was one of several published in a special issue of Biogeochemistry, based on a workshop held in 1993 by the International SCOPE Nitrogen Project.

2018 RAYMOND L. LINDEMAN AWARD

Meredith Holgerson, David Smith
Conservation Research Fellow,
Portland State University, Portland,
Oregon, USA

The Raymond L. Lindeman Award honors a young author for an outstanding peer-reviewed, English-language paper in the aquatic sciences. The 2018 award is being presented to Meredith Holgerson for her paper, "Large contribution to inland water CO₂ and CH₄ emissions from very small ponds," which advances the understanding of the role of small ponds in the global carbon cycle.

FRIDAY CONFERENCE CLOSING PRESENTATION

Friday, 14 June 2018, 15:30 – 16:30

Carson Hall – Victoria Conference Centre

PLENARY PRESENTER

Evelyn Gaiser, Executive Director,
School of Environment, Arts and Society;
Professor, Department of Biological
Sciences and Southeast Environmental
Research Center; and Lead Principle
Investigator, Florida Coastal Everglades
Long Term Ecological Research Pro-
gram, Florida International University

Closing Presentation: Surface Tension: Sustaining our Future through the Connecting Properties of Water

Presentation Description: From molecular to planetary scales, water exposes its intrinsic properties through its capacity to connect. At the molecular scale, connections formed by hydrogen bonds create surface tension. At the planetary scale, freshwater overconsumption connects societies as they cross sustainable boundaries – creating surface tension of global proportions. This talk will explore how the connecting power of water may be harnessed to resolve conflicts by catalyzing societal change. Examples will be provided from South Florida, where decades of freshwater mis-management are interacting with accelerating sea level rise to threaten more assets than any other coastal city in the world. Delays in restoration have magnified saltwater intrusion into the Everglades, altering vertical and lateral hydrologic connections and leading to abrupt changes in the distinctive features and functions of this International Biosphere Preserve. These losses and their reinforcing feedbacks threaten an aquifer that supports 9 million people with freshwater, biodiversity, carbon

sequestration, recreational fisheries, and other ecosystem properties and services, diminishing the region's economic vitality. By coupling long-term research findings with mechanistic experiments and models, scientists from academia, agencies, and municipalities are uniting around solutions for reversing or at least decelerating these changes. Independent evaluators, including scientists serving the National Academy of Sciences, are being regarded as critical 'restoration brokers' for their insightful contributions to science-backed conflict resolution. After perilous delays, freshwater restoration is now underway with improved public recognition and support stemming from novel approaches to civic engagement. The restoration process also exhibits a more nimble and adaptive approach by freshwater managers – an attribute that has never been more important as multiple drivers interact to change ecosystems in unpredictable ways. As communities unite around Everglades restoration, scientists are engaging in international collaborations to transfer knowledge to secure a better fate for other expansive freshwater wetlands, and their dependent communities. By enhancing social cohesion, the properties of water may resolve tensions stimulated by resource limitation by generating creative solutions for sustainable sharing.

Biographical Information: Dr. Evelyn Gaiser is Executive Director of the School of Environment, Arts and Society and Professor in the Department of Biological Sciences and Southeast Environmental Research Center at FIU. She is an aquatic ecologist whose research is focused on understanding how algae can be used as "sentinels" of the effects of long-term changes in climate and land-use in aquatic ecosystems. She has published over 100 peer-reviewed publications and book chapters that detail the ways that algae reflect changes in water quality and availability, and that have set the stage for regulatory criteria protecting the nation's waters. While her work focuses on aquatic systems of South Florida, she and her students also conduct international studies to expand findings contextually. She received her B.S. from Kent State University, M.S. from Iowa State University and Ph.D. at University of Georgia. Research in Dr. Geiser's lab has informed the progress of Everglades Restoration, and is integrated into the Florida Coastal Everglades Long-Term Ecological Research program (FCE LTER, <http://fcelter.fiu.edu/>), which Dr. Gaiser has led since 2007. The FCE LTER program is a National Science Foundation (NSF)-funded long-term Everglades research platform operated out of FIU, and is one of only 25 sites in the U.S. LTER Network. The FCE LTER program includes 75 senior scientists and 64 students from multiple departments and schools at FIU, as well as 29 partnering institutions including academic and agency partners. Research focuses on the central idea that in coastal wetlands, climate change and resource management decisions interact to influence freshwater availability, ecosystem dynamics, and the value and utilization of ecosystem services by people. Dr. Gaiser has been committed to facilitating the advancement of science through collaboration and public-private partnerships, and serves on the science council of the LTER Network and steering committee of the Global Lake Ecological Research Network (GLEON). As Executive Director of FIU's School of Environment,

Arts and Society (SEAS), Dr. Gaiser works to unite faculty across the natural and social sciences and humanities in creative work and inspirational teaching to foster sustainability of the planet. The mission of SEAS is to find solutions to address environmental challenges by training students to be innovative leaders of the 21st Century. SEAS faculty and students engage with the public through key partnerships that engage communities in actions of change through science and the arts. Dr. Gaiser is a trained musician and has created creative works to express science through music (<https://www.youtube.com/watch?v=m7fCmHG3h7k>).

PRESENTER INFORMATION

ON-SITE SUBMISSION OF ORAL PRESENTATIONS

All oral presentations will need to be submitted in the Presentation Room, View Royal Room, located on Level 2 of the Victoria Conference Centre. This room will be staffed and run by audio visual technicians. Presenters may submit their presentations beginning at 15:00 on Sunday, 10 June 2018. If you were assigned to give a talk, you will need to upload your presentation preferably 24 hours in advance. Those who are presenting on Monday need to arrive in time to upload on Sunday.

Personal laptops cannot be used in the session rooms. Dedicated internet access will not be available in the session rooms and cannot be used for presentations.

Presentation room hours are listed below:

Sunday	15:00 to 21:00
Monday, Tuesday, Wednesday.....	07:30 to 17:30
Thursday.....	08:00 to 17:30
Friday	07:30 to 16:00

POSTER SESSIONS AND RECEPTIONS

Posters numbered 1 through 92 will be located in the Lower Pavilion, and those numbered 93 through 180 will be in the Upper Pavilion. The Lower Pavilion also will include artists' posters lettered A through H.

Posters will be organized in session groupings for the entire meeting to maximize opportunities for viewing. There are two designated poster sessions during the meeting, Tuesday and Thursday, from 16:00 to 18:00 in the Pavilion areas. Poster presenters have been assigned to a specific poster session, but they can present their posters during both sessions to ensure maximum exposure for their research. Receptions are planned during both poster sessions. The poster session times do not conflict with concurrent oral presentations, and poster sessions are scheduled in conjunction with the oral component of the session to which they are assigned.

POSTER SET UP AND TEARDOWN TIMES

Posters can go up Sunday, 10 June, from 15:00 to 19:00 and will remain in place through 18:00 on Thursday, 14 June. They must be removed following the final poster session by 21:00 on Thursday.

MEETING AGENDA

SATURDAY, 9 JUNE 2018

8:00 - 17:00	ASLO Board Meeting	Empress Hotel
--------------	--------------------	---------------

SUNDAY, 10 JUNE 2018

8:00 - 16:00	ASLO Board Meeting	Empress Hotel
8:00 - 17:00	International Federation of Boreal Aquatic Research Workshop (Invitation Only)	Sidney - Level 2 - VCC
13:00 - 18:00	Water Connects First Nations Art Show	Pre-function Area-Level 1 - VCC
13:00 - 16:00	Broadening the Impacts of Your Aquatic Science	Colwood 1&2-Level 2 - VCC
15:00 - 19:00	Registration	Pre-function Area-Level 1 - VCC
15:00 - 21:00	Presentation Room Open	View Royal - Level 2 - VCC
15:00 - 21:00	Family Room Open	West Coast Room - Level 1 - VCC
17:00 - 18:00	Student Volunteer Training	Meet at Registration Desk
18:00 - 19:00	Opening Plenary Session	Carson Hall - Level 2 - VCC
19:00 - 21:00	Opening Mixer Reception	Crystal Ballroom and Palm Court - Empress Hotel
21:00	Student Pub Crawl	Meet Near the Registration Desk - VCC

MONDAY, 11 JUNE 2018

07:30 - 17:30	Registration	Pre-function Area-Level 1 - VCC
07:30 - 17:30	Presentation Room Open	View Royal - Level 2 - VCC
08:00 - 18:00	Family Room Open	West Coast Room - Level 1 - VCC
08:00 - 18:00	Local Artists	Totem Area - Level 1 - VCC
08:30 - 10:30	Concurrent Sessions	Various Rooms - VCC
10:30 - 11:00	Coffee Break	Courtyard - Level 1 - VCC
11:00 - 12:30	Plenary Session	Carson Hall - VCC
12:30 - 14:00	Lunch	Attendees are on their own.
12:30 - 18:00	Poster Set Up by Presenters	Pavilions 1 & 2 - VCC
12:30 - 18:00	Exhibit Set Up	Pre-function Area - Level 1 - VCC
14:00 - 15:30	Concurrent Sessions	Various Rooms - VCC
15:30 - 16:00	Coffee Break	Courtyard - Level 1 - VCC
16:00 - 18:00	Concurrent Sessions	Various Rooms - VCC
18:00 - 19:00	ASLO Fellows and Membership Reception	Carson Hall Pre-function Area - Level 2 - VCC
19:00 - 20:00	ASLO Business Meeting	Carson Hall A - Level 2 - VCC
20:00 - 21:00	Early Career Mixer	Courtyard - Level 1 - VCC
20:00 - 21:00	Student Mixer	Carson Hall Pre-function Area - Level 2 - VCC

TUESDAY, 12 JUNE 2018

07:30 - 17:30	Presentation Room Open	View Royal - Level 2 - VCC
08:00 - 17:30	Registration	Pre-function Area-Level 1 - VCC
08:00 - 18:00	Family Room Open	West Coast Room - Level 1 - VCC
08:00 - 18:00	Local Artists	Totem Area - Level 1 - VCC
08:30 - 10:30	Concurrent Sessions	Various Rooms - VCC
08:30 - 18:00	Exhibit Area	Pre-function Area-Level 1 - VCC
08:30 - 18:00	Poster Area	Pavilions 1 & 2 - VCC
10:30 - 11:00	Coffee Break	Courtyard - Level 1 - VCC
11:00 - 12:30	Plenary Session	Carson Hall - VCC
12:30 - 14:00	Lunch	Attendees are on their own.
12:30 - 14:00	Coaching Science Workshop	Esquimalt - Level 1 - VCC
12:30 - 14:00	Wikiproject Lakes Workshop	Sidney - Level 2 - VCC
12:30 - 14:00	ASLO Student Workshop - Publish Me, Please!	Saanich 1 & 2 - Level 1 - VCC
14:00 - 16:00	Concurrent Sessions	Various Rooms - VCC
16:00 - 18:00	Poster Session and Reception	Pavilions 1&2 and Courtyard - VCC

20:00 - 22:00	Story Collider Event - Optional Off-site	Copper Owl (1900 Douglas Street, Victoria)
---------------	--	--

WEDNESDAY, 13 JUNE 2018

07:30 - 17:30	Presentation Room Open	View Royal - Level 2 - VCC
08:00 - 17:30	Registration	Pre-function Area-Level 1- VCC
08:00 - 18:00	Family Room Open	West Coast Room - Level 1 - VCC
08:00 - 18:00	Local Artists	Totem Area - Level 1 - VCC
08:30 - 18:00	Exhibit Area	Pre-function Area-Level 1- VCC
08:30 - 18:00	Poster Area	Pavilions 1 & 2 - VCC
08:30 - 10:30	Concurrent Sessions	Various Rooms - VCC
10:30 - 11:00	Coffee Break	Courtyard - Level 1 - VCC
11:00 - 12:30	Plenary Session	Carson Hall - VCC
12:30 - 14:00	Lunch	Attendees are on their own.
12:30 - 14:00	Publishing Methods in Aquatic Science Workshop	Esquimalt - Level 1 - VCC
12:30 - 14:00	ASLO Early Career Workshop - Effective Publishing and Review Strategies	Oak Bay 1 & 2 - Level 1 - VCC
14:00 - 15:30	Concurrent Sessions	Various Rooms - VCC
15:30 - 16:00	Coffee Break	Courtyard - Level 1 - VCC
16:00 - 18:00	Concurrent Sessions	Various Rooms - VCC
19:00 - 22:00	Ultimate Victoria Evening Event - Optional Off-site	Ogden Point Breakwater Pier B - Victoria

THURSDAY, 14 JUNE 2018

07:30 - 17:30	Presentation Room Open	View Royal - Level 2 - VCC
08:00 - 18:00	Family Room Open	West Coast Room - Level 1 - VCC
08:30 - 17:30	Registration	Pre-function Area-Level 1- VCC
08:00 - 18:00	Local Artists	Totem Area - Level 1 - VCC
08:30 - 18:00	Exhibit Area	Pre-function Area-Level 1- VCC
08:30 - 18:00	Poster Area	Pavilions 1 & 2 - VCC
09:00 - 10:30	Concurrent Sessions	Various Rooms - VCC
10:30 - 11:00	Coffee Break	Courtyard - Level 1 - VCC
11:00 - 12:30	Plenary Session	Carson Hall - VCC
12:30 - 14:00	Lunch	Attendees are on their own.
12:30 - 14:00	ASLO Student Workshop - How to ASK so that you shall RECEIVE	Saanich 1 & 2 - Level 1 - VCC
12:30 - 14:00	Strategies for Cross-jurisdictional HABs Prevention Town Hall	Sidney - Level 2 - VCC
14:00 - 16:00	Concurrent Sessions	Various Rooms - VCC
14:00 - 16:00	Artists' Session - Ch[art]ing the Waters: Artists investigate aquatic worlds and environmental change	Colwood 1&2-Level 2- VCC
16:00 - 18:00	Poster Session and Reception	Pavilions 1&2 and Courtyard - VCC
18:00 - 21:00	Poster Teardown by Presenters	Pavilions 1&2
18:00 - 21:00	Exhibit Teardown by Exhibitors	Pre-function Area-Level 1 - VCC

FRIDAY, 15 JUNE 2018

07:30 - 16:00	Presentation Room Open	View Royal - Level 2 - VCC
08:00 - 17:30	Registration	Pre-function Area-Level 1 - VCC
08:00 - 18:00	Family Room Open	West Coast Room - Level 1 - VCC
08:00 - 18:00	Local Artists	Totem Area - Level 1 - VCC
08:30 - 10:00	Concurrent Sessions	Various Rooms - VCC
10:00 - 10:30	Coffee Break	Pre-function Area and Courtyard - Level 1 - VCC
10:30 - 12:00	Concurrent Sessions	Various Rooms - VCC
12:00 - 13:30	Lunch	Attendees are on their own.
13:30 - 15:00	Concurrent Sessions	Various Rooms - VCC
15:00 - 15:30	Coffee Break	Pre-function Area and Courtyard - Level 1 - VCC
15:30 - 16:30	Closing Plenary Session	Carson Hall - VCC
16:30 - 18:00	Closing Mixer	Pre-function Area and Courtyard - Level 1 - VCC

Should you need minor first aid when you are the conference center, please come to the conference registration desk on Level 1. Staff at the desk will contact someone who can assist you.

SPECIAL NEEDS

If you have a disability or limitation that may require special consideration to ensure your full participation in this meeting, please see a staff person at the conference registration desk. You also may send an email to business@aslo.org prior to your arrival at the meeting.

LOST AND FOUND

Please come to the Registration Desk for inquiries concerning lost and found items.

MESSAGE BOARDS

Message boards are located on Level 2 in the foyer of Carson Hall. This is where you may post announcements or check for messages throughout the conference.

COFFEE BREAKS

Morning coffee breaks are planned during the transition time between concurrent oral sessions and the plenaries Monday through Friday. Afternoon breaks are planned Monday, Wednesday and Friday as well. Complimentary coffee and tea will be served.

Water will be provided in coolers, and attendees are encouraged to bring their own water bottles. Breaks will be set in various locations on Level One.

RECEIPTS AND LETTERS OF PARTICIPATION

Your registration confirmation that was emailed to you when you registered for the meeting will serve as your receipt. In keeping with our conservation efforts, we will not provide printed receipts to attendees on site at the meeting. If you have misplaced your original receipt and need another copy, please send an email to the conference registrar, Jo Davis, at jdavis@sgmeet.com. Likewise, letters of participation only will be provided to those who are registered for the meeting. If you need a letter of participation, please contact Jo Davis at the email address given.

CONFERENCE REGISTRATION AND INFORMATION

Registration and check in for the meeting will be available all week in the prefunction area on Level 1 of the Victoria Conference Centre. Please check in upon your arrival at the meeting in order to receive your name badge and other important materials and information.

REGISTRATION DESK HOURS:

Sunday, 10 June 2018	15:00 to 19:00
Monday, 11 June 2018	07:30 to 17:30
Tuesday, 12 June 2018.....	08:00 to 17:30
Wednesday, 13 June 2018.....	08:00 to 17:30
Thursday, 14 June 2018.....	08:30 to 17:30
Friday, 15 June 2018	08:00 to 17:30

ASLO CODE OF CONDUCT

A core goal of ASLO is to foster a scientific community that is safe, hospitable, and productive for all its members. Thus, ASLO seeks to provide a welcoming and productive environment for those attending our meetings, workshops, and events, regardless of gender, sexual orientation, gender identity, race, ethnicity, religion, disability, physical appearance, or career level. All participants, including, but not limited to, attendees, speakers, volunteers, exhibitors, ASLO staff, service providers, and others are expected to abide by this ASLO Events Code of Conduct. This Code of Conduct applies to all components of an ASLO event, including those sponsored by organizations other than ASLO but held in conjunction with ASLO events, in public or private facilities.

EXPECTED BEHAVIOR

- All participants, attendees, ASLO staff, and vendors are treated with respect and consideration, valuing a diversity of views and opinions.
- Be considerate, respectful, and collaborative.
- Communicate openly with respect for others, critiquing ideas rather than individuals.
- Avoid personal attacks directed toward other attendees, participants, ASLO staff, and suppliers/vendors.
- Be mindful of your surroundings and of your fellow participants. Alert staff if you notice a dangerous situation or someone in distress.
- Respect the rules and policies of the meeting venue, hotels, ASLO-contracted facility, or any other venue.

UNACCEPTABLE BEHAVIOR

- Harassment, sexual harassment, bullying, or discrimination in any form will not be tolerated.
- Physical or verbal abuse of any attendee, speaker, volunteer, exhibitor, ASLO staff member, service provider, or other event guest.
- Examples of unacceptable behavior include, but are not limited to, verbal comments related to gender, sexual orientation, disability, physical appearance, body size, race, religion, national origin, inappropriate use of nudity and/or sexual images in public spaces or in presentations, or threatening or stalking any attendee, speaker, volunteer, exhibitor, ASLO staff member, service provider, or other event guest.

- Disruption of talks at oral or poster sessions, in the exhibit hall, or at other events organized by ASLO at the event venue, hotels, or other ASLO-contracted facilities.

CONSEQUENCES

- Anyone requested to stop unacceptable behavior is expected to comply immediately.
- ASLO staff (or their designee) or security may take any action deemed necessary and appropriate, including immediate removal from the meeting without warning or refund.
- ASLO reserves the right to prohibit attendance at any future meeting.

REPORTING UNACCEPTABLE BEHAVIOR

If you are the subject of unacceptable behavior or have witnessed any such behavior, please immediately notify an ASLO staff member or ASLO officer.

WATER CONNECTS FIRST NATIONS ART SHOW

Sunday, 10 June 2018, 13:00 to 18:00

Pre-function Area – Level 1 - VCC

Monday through Friday, 11 – 15 June 2018, 10:30 to 18:00

Eagle Feather Gallery (633 Courtney St., Victoria, B.C.)

The Art Show features local First Nations Artists who have created art works with a water theme in a variety of mediums including wood carvings, acrylic paintings, prints, ceramics and engraved silver. First Nations Artists will be in attendance for the show and a wood carving demonstration will be featured.

The Water Connects First Nations Art Show is from 13:00 and 18:00 pm on Sunday, June 10th in the conference center lobby. The art show will then continue Monday thru Friday at Eagle Feather Gallery, daily from 10:30 am to 6:00 pm, located next door to the conference center in Nootka Court.

A First Nations table featuring handmade items with a water theme and t-shirts with the conference Spindle Whorl logo will be for sale daily from 10:30 to 16:30 Monday to Friday in the conference center lobby.

For more information on the art show, please contact or go by the following:

Eagle Feather First Nations Artists' Gallery
633 Courtney St., Victoria, B.C., V8W 1Z8
Tel: (250) 388-4330
Email: info@eaglefeathergallery.com
www.eaglefeathergallery.com

EXHIBITORS

Exhibitors are in the pre-function area on Level 1 across from the conference registration desk at the Victoria Conference Centre. Exhibits will be set up by Monday afternoon at 18:00 and will be in place over the following days and times:

Tuesday, June 12, 2018 8:30 – 18:00
Wednesday, June 13, 2018 8:30 – 18:00
Thursday, June 14, 2018 8:30 – 18:00

Attendees will have access to the exhibits during the hours listed above. ASLO appreciates the support of the following organizations who are exhibiting at the 2018 Summer Meeting:

ANDRÉ E. LALONDE AMS LABORATORY (E-04)

University of Ottawa
25 Templeton Street (ARC 418)

WORKSHOPS, AUXILIARY EVENTS, AND TOWN HALLS

INTERNATIONAL FEDERATION OF BOREAL AQUATIC RESEARCH

Sunday, 10 June 2018, 08:00 to 17:00
Sidney – Level 2 - VCC

The integration of aquatic biogeochemistry is key to our understanding of the boreal biome, and involves combining information from a large diversity of systems, and in turn scaling this in space and time, and both steps represent major challenges. The objective is this workshop is to pursue this integration through the enhancement of research collaborations among the research groups that are operating across the boreal biome. This workshop is directly associated to the special session SS026: Integrative Research on the Biogeochemistry of Inland Waters in Northern High Latitudes, and will be part of the ongoing effort to develop the International Federation of Boreal Aquatic Research (IFBAR), an initiative that was launched over seven years ago to facilitate exchange between groups working across the boreal biome. This is also a follow up of an extremely successful workshop that was carried out during the ASLO in Puerto Rico along similar lines. Participants will discuss the problems and possible solutions associated to scaling up of boreal biogeochemical processes at the watershed and regional levels, and the extrapolation of these processes in time. They will also explore concrete actions that the IFBAR can take in the future to enhance and catalyze collaborations, including funding opportunities, and the possibility of developing special thematic issues in ASLO journal among others. Workshop will involve a maximum of 10 to 15 participants who are all already attending the ASLO meeting. The workshop will be organized and led by the co-chairs of SS026, and participants will include a core group of researchers who have already been involved in the development of the IFBAR, plus invited colleagues who will be selected on the basis of 1) geographical location of their research, so as to have representation of the major boreal regions, 2) expertise on specific aquatic components, so as to cover the major aquatic components of the boreal landscape (streams, rivers, wetlands, lakes), and 3) expertise in modeling, landscape analysis and remote sensing. Organizers hope for a mix of graduate students, early career and more senior scientists, as well as the participation of graduate students. Organizers are open to welcoming colleagues who might be interested in taking part, and it is very likely that the group will continue to meet informally throughout the course of the ASLO meeting.

Attendance to this event is by invitation only. For more information about this event, please contact: Paul del Giorgio, del_giorgio.paul@uqam.ca

BROADENING THE IMPACTS OF YOUR AQUATIC SCIENCE

Sunday, 10 June 2018, 13:00 to 16:00
Colwood 1 & 2 – Level 2 - VCC

This workshop will focus on helping participants develop ideas for effective education and outreach activities. Featuring active, hands-on learning, small group discussions, and guided inquiry, this workshop will include short presentations on exemplary projects in formal and informal education designed for K-12, undergraduate, graduate, and public audiences to stimulate ideas. Discussions of how people learn, how to assess the effectiveness of outreach activities, and how to develop projects that meet specific goals will help support project development. Participants are welcome to bring ideas that they would like to develop and share, and for which they would like to receive feedback.

Attendance is open. For more information about this event, please contact: Robert Chen, bob.chen@umb.edu

COACHING SCIENCE

Tuesday, 12 June 2018, 12:30 to 14:00
Esquimalt – Level 1 - VCC

Coaching Science: Improving your teaching by observing how kids learn to play sports. In order to build new knowledge in a diversity of learner, scientists need to understand how people learn. Millions of kids learn to play youth sports, and some simple but powerful coaching techniques can be applied to your teaching of science. Do science. Practice science. Have fun. Allow students to make mistakes and learn from each other. Adopt a “slanty” line for assessment of learning gains. This workshop will examine the similarities between teaching science and coaching sports.

Attendance is open. For more information about this event, please contact: Cynthia Hagle, chagle@d.umn.edu

WIKIPROJECT LAKES WORKSHOP

Tuesday, 12 June 2018, 12:30 to 14:00
Sidney – Level 2 - VCC

People are increasingly looking towards the internet for information about specific natural areas such as lakes. However, basic information about these areas is often only available to non-professional scientists via scattered state-based web portals. One of the few general public-facing sources of this information that includes lake locations, types, and other characteristics is Wikipedia (<https://wikipedia.org>). However, because only a small fraction of lakes in the world have a dedicated page on Wikipedia, people are not able to easily find basic information about their local lake or lakes they might like to visit. During this workshop, participants will learn about the underlying structure of Wikipedia pages, recommended practices, and reasonable workflows for editing existing lake pages as well as creating new ones. Workshop materials will be archived at <https://doi.org/10.6084/m9.figshare.6157226>

Attendance is open. For more information about this event, please contact: Joseph Stachelek, stachel2@msu.edu

PUBLISHING METHODS IN AQUATIC SCIENCE EDUCATION

Wednesday, 13 June 2018, 12:30 to 14:00

Esquimalt – Level 1 - VCC

New methods for teaching ocean science, environmental science, and limnology have been recently developed and evaluated in both formal and informal settings. However, scientists and informal educators rarely share their methods widely through peer-reviewed literature, especially in the aquatic sciences. This workshop invites anyone that is interested in publishing their formal or informal educational methods in limnology and oceanography. "Limnology and Oceanography: Methods will consider any manuscript whose primary focus is methodological and that deals with problems in the aquatic sciences." A Special Issue of Limnology and Oceanography Methods focused on methods in education is currently being considered. Come meet the editor, discuss the possible rewards of publishing educational research methods, and receive pointers on how to gather data, present findings, and write your paper.

Attendance is open. For more information about this event, please contact: Paul Kemp, webeditor@aslo.org

STRATEGIES FOR CROSS-JURISDICTIONAL HABS PREVENTION

Thursday, 14 June 2018, 12:30 to 14:00

Sidney – Level 2 - VCC

Strategies for cross-jurisdictional HABs prevention, preparedness, and response -- All ASLO participants are invited to participate in a town-hall style gathering to share strategies for cross-jurisdictional HABs prevention, preparedness, and response. Many waters suffering from Harmful Algal Blooms are shared by multiple political jurisdictions. This geo-political reality presents unique challenges and opportunities for HABS research and management. Facilitators will share perspectives from the binational Great Lakes region which covers two countries, multiple tribes/first nations, eight states, two provinces and hundreds of local units of government. Most of the time will be spent asking participants to share their perspectives about strategies experience or observed or that have been successful or show promise for preventing, preparing, and responding to HABS prevention in a cross-jurisdictional setting. They will also be asked to share lessons learned about what hasn't worked and how we can use those lessons to improve future activities. Finally, participants will document (for their keeping), and have the opportunity share with others, the strategies from this town hall discussion they plan to take back to their work.

Attendance is open. For more information about this event, please contact: Victoria Pebbles, vpebbles@glc.org

ARTISTS' SESSION

SS074: CH[ART]ING THE WATERS: ARTISTS INVESTIGATE AQUATIC WORLDS AND ENVIRONMENTAL CHANGE

Thursday, 14 June 2018, 14:00 to 16:00

Colwood 1 & 2 – Level 2 – VCC

ORGANIZERS:

Nina Otis Haft, Professor of Theater and Dance, California State University, East Bay, Hayward, California, USA

Lauren Elder, Environmental Artist/Designer, Lauren Elder Studio, Oakland, California, USA

PARTICIPANTS:

Maria Aranguren-Gassis, Animal Biology and Ecology Department, University of Vigo, Vigo, Spain

Elizabeth "Liz" Miller, Professor in Communication Studies, Concordia University, Montreal, and Director, The Shoreline Project

John Roloff, Environmental Artist, John Roloff Studio, Oakland, California, USA

Buster Simpson, Installation/Public Art, Buster Simpson, LLC, Seattle, Washington, USA

Don Wilkison, Artist/Hydrologist, Warrior Ant Press, Kansas City, Missouri, USA

Moira Williams, Artist/Instigator Working in Bio - Art, Performance, Installation, Sculpture, and Sound, Sayville, New York, USA

Humans have studied the forms, phenomena and mysteries of water since our beginnings. The oldest examples of Australian Aboriginal rock art, including depictions of waterholes, are estimated to be as much as 40,000 years old. Proceeding from this lineage, contemporary artists are posing questions, checking assumptions, observing patterns, acting creatively and modeling the future of water, which is the lifeblood of the human body and of the planet. Ch[art]ing the Waters maps this growing body of aesthetic and sensory practices. There is urgency and also timelessness in this endeavor. What do today's artists contribute to understanding and working with water as a resource, a process and a habitat? What critical changes are triggered when artists sit at the table with scientific researchers in the physical, biological, geological, environmental fields? How might artists and scientists partner in solving today's problems? This session invites presentations by artists whose materials, methods, forms and are focused upon water in all its forms. This session will target an interdisciplinary audience to explore art and science as complementary modes of creative inquiry in response to local and global issues of water, launching new conversations and opening new routes of action.

Artists from this session will participate in plenary sessions during the week with brief presentations about their work.

SOCIETY EVENTS

ASLO BUSINESS MEETING

Monday, 11 June 2018, 19:00 - 20:00

Carson Hall A – VCC

The annual ASLO Business Meeting will be held on Monday, 11 June, beginning at 19:00. A reception honoring ASLO fellows and sustaining fellows will precede the business meeting, and food and drinks will be available during that time. The business meeting is open to all attendees -- members and non-members. This will be a great opportunity to meet and talk to the ASLO officers, board members, and staff.

STUDENT EVENTS

STUDENT VOLUNTEER TRAINING SESSION

Sunday, 10 June 2018, 17:00 – 18:00

Meet Near the Registration Desk – VCC

Students who have signed up to serve as student volunteer room monitors must attend this training session. Meet at the registration area on Level 1 of the Victoria Conference Centre. Please contact Sue Rulla at suer@sgmeet.com for more information or if you have a travel conflict and will not be available to attend the training session on Sunday.

STUDENT PUB CRAWL

Sunday, 10 June 2018, 21:00

Meet Near the Registration Desk – VCC

This is the Conference Kickoff for students! Drink specials will be offered at different bars and establishments near the Victoria Conference Centre. Come make memories with the students who will be at the meeting! Starting at 21:00 immediately following the opening mixer. The group will gather and will leave right after.

STUDENT SOCIAL MIXER SPONSORED BY ASLO

Monday, 11 June 2018, 20:00 - 21:00

Carson Hall Pre-function Area – Level 2 - VCC

An informal student social mixer will be held on Monday evening following the ASLO Membership Meeting. This is a time to come and network with peers as well as senior scientists. Beverages and snacks will be served, and drink tickets will be available at the door (for soft drinks and limited alcoholic beverages). All student registrants, whether ASLO members or non-members, are invited to attend.

STUDENT WORKSHOPS

Students are encouraged to attend the student workshops planned during lunch on Tuesday and Thursday. A limited number of box lunches will be provided for those who plan to stay and participate in these workshops.

PUBLISH ME, PLEASE!

Tuesday, 12 June 2018, 12:30 to 14:00

Saanich I and II – Level 1 – VCC

A panel of editors and reviewers will share what they are looking for when accepting submissions to their journals.

HOW TO ASK SO THAT YOU SHALL RECEIVE

Thursday, 14 June 2018, 12:30 to 14:00

Saanich I and II – Level 1 – VCC

A panel of senior scientists from the public and private sectors will provide insight on how to negotiate salary and other helpful job tips for upcoming graduates.

EARLY CAREER EVENTS

EARLY CAREER SOCIAL MIXER SPONSORED BY ASLO

Monday, 11 June 2018, 20:00 - 21:00

Courtyard Area – Level 1 - VCC

A "meet and mix" reception is planned and organized by members of the ASLO early career (EC) committee to give early career members an opportunity to provide feedback on various topics relevant to them, including any concerns or expectations as an early career member. This is a social gathering for early career members to get to know each other and to network. Beverages and snacks will be served, and drink tickets will be available at the door (for soft drinks and limited alcoholic beverages). Come and meet the ASLO Board and members of the EC committee!

EARLY CAREER WORKSHOP

EFFECTIVE PUBLISHING AND REVIEW STRATEGIES

Wednesday, 13 June 2018, 12:30 to 14:00

Oak Bay I and II – Level 1 - VCC

This will be round table discussion on the topics of effective publishing and reviewing strategies, both of which are important for building up a career. A limited number of lunches will be available to those who attend. Further details about this workshop will be provided later.

ASLO MEETING MENTOR PROGRAM

The ASLO Meeting Mentor Program is open to any participant looking for guidance on navigating the meeting and making new connections. Mentees are grouped with experienced scientists (mentors) who will provide guidance on navigating the meeting and introduce them to other scientists throughout the week. The Meeting Mentor Program debuted at the 2013 Aquatic Sciences Meeting in New Orleans. If you are participating as either a mentor or a mentee, please wear your badge ribbon that identifies you as a participant in this program. Ribbons will be available at registration when you pick up your badge and meeting materials.

SOCIAL AND EVENING EVENTS

OPENING MIXER RECEPTION

Sunday, 10 June 2018, 19:00 - 21:00

Crystal Ballroom and Palm Court – Empress Hotel

This is a time to reconnect with friends and colleagues that you may not have seen since the last ASLO meeting! This event is always a great start to the week. Refreshments and a cash bar will be available. Each registered participant will have one complimentary beverage ticket that can be used at the reception.

ASLO FELLOWS AND MEMBERSHIP RECEPTION SPONSORED BY ASLO

Monday, 11 June 2018, 18:00 - 19:00

Carson Hall Pre-function Area – Level 2

A reception honoring ASLO fellows and sustaining fellows will precede the annual business meeting. This will be a great time to meet and to talk to ASLO officers and board members. Reception food and drink will be served. Everyone is encouraged to attend the business meeting and the membership reception -- especially new ASLO members and student members. The timing is planned so you can attend the business meeting and reception before you head out to the student or early career mixer.

CLOSING MIXER

Friday, 15 June 2018, 16:30 to 18:00

Courtyard and Pre-function Area – Level 1 – VCC

Come and enjoy the closing mixer following the closing plenary session on Friday. ASLO will close the 2018 Summer Meeting in wonderful way. A carefully-crafted raffle prize will be given during the reception. Your registration will include admission to the event. You will want to make every effort to attend. Each registered participant will have one complimentary beverage ticket that can be used at the reception.

OPTIONAL ACTIVITIES

LEKWUNGAN CULTURAL WALKING TOUR

Walking tours are daily Monday to Friday from 12:30 to 2:00 pm. Cost is \$15.00 CAD. Book in advance by emailing info@eaglefeathergallery.com.

Victoria's harbor is the traditional, unceded territory of the Songhees First Nations, who are the Lekwungan people, whose territory extended from Victoria, to Bellingham in Washington State. The walking tour will be conducted by Songhees First Nations Youth from the Songhees Cultural Center, located on the Inner Harbor. The hour and a half walking tour will highlight the First Nations art, sacred water sites and stories of the Lekwungan people. A stop at the Songhees Food Truck on the harbor will provide an opportunity for lunch. For more information on the art show and the walking tours, please contact or go by the following:

Eagle Feather First Nations Artists' Gallery
633 Courtney St., Victoria, B.C., V8W 1Z8
Tel: (250) 388-4330
Email: info@eaglefeathergallery.com
www.eaglefeathergallery.com

STORY COLLIDER EVENT

Tuesday, 12 June 2018 – 20:00 to 22:00

Location: The Copper Owl (1900 Douglas Street, Victoria, BC V8T-4K8)

Cost: \$10.00 CAD per person (paid at the door)

Stories are powerful. Whether hilarious or heartbreaking, subversive or soothing, they reflect who we are and what matters to us. And now, we want to hear yours! Join The Story Collider at ASLO on June 12th for an evening of true, personal stories about science. From a hunt for a meaningful career to a search for those lost at sea, five storytellers will share very different takes on the water that connects us all. If you are curious and would like to browse The Story Collider podcast archive to see what Story Collider is all about, go to: <http://soundcloud.com/the-story-collider>.

Participants in the ASLO Story Collider event include the following:

Michelle McCrackin, Stockholm University's Baltic Sea Center
CJ Beegle-Krause, SINTEF

Christa Torrens, Institute of Arctic and Alpine Research, University of Colorado - Boulder

Maliheh Mehrshad, Biology Centre CAS

Stuart Dyer, Oregon Health & Science University

THE ULTIMATE VICTORIA EVENING EVENT!

Wednesday, 13 June 2018, 19:00 to 22:00

Ogden Point Breakwater Pier B, Victoria

Cost: \$60.00 USD. This is a ticketed optional event and includes select food items and beverages. Additional food and beverage will be available for purchase. You must sign up for this event in advance. A limited number of tickets remain for this event. Please visit the conference registration desk by noon on Wednesday, 13 June, to sign up if you have not done so already.

This unique, warehouse-style location is within easy walking distance (approximately one mile) from the Victoria Conference Centre and offers spectacular evening views of the ocean and cruise ship marine docks. The event will go on rain or shine! Local craft beers and wines will be included along with a selection of non-alcoholic beverages. In keeping with uniquely West Coast fare, participants will enjoy regional cuisine from the top five Victoria food trucks. Local seafood, beef, chicken, and pork options will be featured along with gluten-free, vegan and vegetarian.

The pier has lots of interesting places to visit, and you will be entertained throughout the evening with music from one of Vancouver Island's top-rated DJs, dancing, and even karaoke for those who dare.

MONDAY SCHEDULE-AT-A-GLANCE

Room	Carson Hall A	Carson Hall B	Carson Hall C	Colwood 1&2	Lecture Theater	Saanich 1&2	Oak Bay 1&2	Esquimalt	Sidney
8:30 - 10:30 am	SS025 Climate Change and Small Lakes: Physical, chemical, and biological responses	SS013 Unraveling the Role of Physics on Biological & Biogeochemical Processes in Aquatic Ecosystems	SS011 The Biogeochemistry of Organic Matter: Cutting Across Ecosystem Boundaries & Aquatic Gradients	SS028 Small Pond Ecology: Synthesizing current knowledge and identifying future research needs	SS002 Importance of Winter and Seasonality in Aquatic Systems	SS067 Effects of Human Alterations on Hydrological, Ecological, and Biogeochemical Dynamics of Aquatic Systems	SS040 Innovations in Aquatic Science Education	SS006 Preparing for 21st Century Challenges in Aquatic Sciences: Science-Policy Communication and Diversity in the Scientific Community	SS052 Parasites, Pathogens Everywhere: It's time for a closer look
10:30 - 11:00 am	COFFEE BREAK - Courtyard and Prefunction Area 1A								
11:00 am - 12:30 pm	<p>PLENARY AND AWARDS SESSION Plenary Speaker - Phil Levin Professor of Practice, School of Environmental and Forest Sciences, University of Washington, and Lead Scientist, The Nature Conservancy, Seattle, Washington, USA</p> <p>Art Session Introduction - Ajit Subramaniam Lamont-Doherty Earth Observatory, Columbia University, New York, New York, USA</p> <p>Artist Presentations: Nina Otis Haft, Professor of Theater and Dance, California State University, East Bay, Hayward, California, USA Lauren Elder, Environmental Artist/Designer, Lauren Elder Studio, Oakland, California, USA</p> <p>2018 Yentsch-Schindler Award Recipient - Cayelan Carey Virginia Tech University, Blacksburg, VA, USA</p>								
12:30 - 2:00 pm	LUNCH - WORKSHOPS AND AUXILIARY MEETINGS								
2:00 - 3:30 pm	SS025 Climate Change and Small Lakes: Physical, chemical, and biological responses	SS013 Unraveling the Role of Physics on Biological & Biogeochemical Processes in Aquatic Ecosystems	SS011 The Biogeochemistry of Organic Matter: Cutting Across Ecosystem Boundaries & Aquatic Gradients	SS090 Frontiers in Aquatic Respiration	SS002 Importance of Winter and Seasonality in Aquatic Systems	SS072 Acidification, Hypoxia and Carbonate Chemistry in Marine and Freshwater Systems	SS031 Trait-based Community Organization Along Environmental Gradients: Ecological & Evolution	SS006 Preparing for 21st Century Challenges in Aquatic Sciences: Science-Policy Communication and Diversity in the Scientific Community	SS052 Parasites, Pathogens Everywhere: It's time for a closer look
3:30 - 4:00	COFFEE BREAK - Courtyard and Prefunction Area 1A								
4:00 - 6:00 pm	SS022 Marine Microbial Biochemistry, Productivity and Climate Change	SS013 Unraveling the Role of Physics on Biological & Biogeochemical Processes in Aquatic Ecosystems	SS011 The Biogeochemistry of Organic Matter: Cutting Across Ecosystem Boundaries & Aquatic Gradients	SS080 From Headwaters to Coastal Zones: Emerging & legacy contaminants in aquatic ecosystems and their effects	SS002 Importance of Winter and Seasonality in Aquatic Systems	SS015 Methane Production and Fluxes from Oxidative Marine and Freshwater Systems	SS031 Trait-based Community Organization Along Environmental Gradients: Ecological & Evolution	SS062 Socio-ecological Complexity in Regulated Aquatic Ecosystems: Transforming potential conflicts into acceptable trade-offs	SS077 Urban water systems: ecological connections, ecosystem services, and opportunities for management intervention
6:00 - 7:00 pm	ASLO FELLOWS RECEPTION - Carson Hall Prefunction 2A								
7:00 - 8:00 pm	ASLO BUSINESS MEETING / MEMBERSHIP MEETING - Carson Hall								

TUESDAY SCHEDULE-AT-A-GLANCE

Room	Carson Hall A	Carson Hall B	Carson Hall C	Colwood 1&2	Lecture Theater	Saanich 1&2	Oak Bay 1&2	Esquimalt	Sidney
8:30-10:30 am	SS021 The Damming of Rivers and Lakes and Its Effects on Biogeochemical Cycles	SS100 Food Web Interactions and Trophic Linkages	SS051 Cyanobacterial Ecology as a Basis for Their Mitigation and Control Under Global Change	SS020 Living in a Variable World: Studying the role & consequence of variance, covariance, and extremes in aquatic ecosystems	SS002 Importance of Winter and Seasonality in Aquatic Systems	SS063 Linking Metagenomics to Aquatic Microbial Ecology and Biogeochemical Cycles	SS029 Ecological Stoichiometry Across Scales	SS063 Understanding The Mercury Cycle in a changing world: Linking Terrestrial and Aquatic Systems	SS084 Beyond Natural Variability: Cumulative effects and tipping points in aquatic systems
10:30-11:00 am	COFFEE BREAK - Courtyard and Prefunction Area 1A								
11:00 am-12:30 pm	PLENARY AND AWARDS SESSION Plenary Speaker - Anina Pollard U.S. Environmental Protection Agency, Washington, DC, USA Artists' Presentations Moira Williams, Artist/Instigator Working in Bio-Art, Performance, Installation, Sculpture, and Sound, Sayville, New York, USA Don Wilkison, Artist/Hydrologist, Warrior Art Press, Kansas City, Missouri, USA 2018 G. Evelyn Hutchinson Award - Emily Stanley University of Wisconsin, Madison, Wisconsin, USA								
12:30-2:00 pm	LUNCH - ASLO STUDENT WORKSHOP, OTHER WORKSHOPS AND AUXILIARY MEETINGS								
2:00-4:00 pm	SS021 + SS038 The Damming of Rivers and Lakes and Its Effects on Biogeochemical Cycles (3 TALKS) Environmental Flows: Recent Science, Applications, and Policy Implementation (5 TALKS)	SS100 Food Web Interactions and Trophic Linkages	SS051 Cyanobacterial Ecology as a Basis for Their Mitigation and Control Under Global Change	SS082 Emerging Models of Trace Metal Bioavailability to Aquatic Organisms	SS016 Change in Lakes and Rivers at Regional, Continental and Global Scales	SS063 Linking Metagenomics to Aquatic Microbial Ecology and Biogeochemical Cycles	SS029 Ecological Stoichiometry Across Scales	SS063 Understanding The Mercury Cycle in a changing world: Linking Terrestrial and Aquatic Systems	SS041 How Micro-bial Dispersal and Shape Determine the Local Structure and Functioning of Aquatic Assemblages
4:00-6:00 pm	POSTER SESSION AND RECEPTION Pavilion and Courtyard								
8:00-10:00 pm	STORY COLLIDER EVENT - Off-site (Copper Owl) Doors Open at 7:30, Event from 8:00 to 10:00								

WEDNESDAY SCHEDULE-AT-A-GLANCE

Room	Carson Hall A	Carson Hall B	Carson Hall C	Colwood 1&2	Lecture Theater	Seannich 1&2	Oak Bay 1&2	Esquimalt	Sidney
8:30 - 10:30 am	SS083 Sources, Trophic Transfer, & Utilization of Dietary Nutrients in Aquatic Ecosystems: Current Status and Future Challenges	SS026 Integrative Research on the Biogeochemistry of Inland Waters in Northern High Latitudes	SS050 Control of Algal Blooms	SS037 Fish Ecology	SS008 Understanding Mountain Lakes in a Changing World	SS044 Bringing the "Natural Flow Regime" to Lakes	SS029 Ecological Stoichiometry Across Scales	SS016 Change in Lakes and Rivers at Regional, Continental and Global Scales	SS041 How Microbial Dispersal and Shape Determine the Local Structure and Functioning of Aquatic Assemblages
10:30 - 11:00 am	COFFEE BREAK - Courtyard and Prefunction Area 1A								
11:00 am - 12:30 pm	<p>PLENARY AND AWARDS SESSION</p> <p>Plenary Speaker - Jonathan Moore</p> <p>Liber Ero Chair of Coastal Science and Management and Associate Professor, Simon Fraser University, Burnaby, BC, Canada</p> <p>ASLO 2019 - San Juan Presentation - John Downing</p> <p>Artist Presentation</p> <p>John Roloff, Environmental Artist, John Roloff Studio, Oakland, California, USA</p> <p>2018 Ramón Margalef Award for Excellence in Education - Cynthia Hagley</p> <p>Minnesota Sea Grant College, Duluth, Minnesota, USA</p> <p>2018 Ruth Patrick Award Acceptance - Kelly Hondula for Margaret Palmer</p> <p>University of Maryland, College Park, Maryland, USA</p>								
12:30 - 2:00 pm	LUNCH - WORKSHOPS AND AUXILIARY MEETINGS								
2:00 - 3:30 pm	SS083 Sources, Trophic Transfer, & Utilization of Dietary Nutrients in Aquatic Ecosystems: Current Status and Future Challenges	SS026 Integrative Research on the Biogeochemistry of Inland Waters in Northern High Latitudes	SS050 Control of Algal Blooms	SS037 Fish Ecology	SS008 Understanding Mountain Lakes in a Changing World	SS018 Aquatic Ecosystem Development: Does function follow form?	SS045 Gas Exchange at the Water-Atmosphere Interface in Lakes, Rivers, Estuaries and the Open Ocean	SS075 Integrating Science and Management at the Coastal Interface: Landscape-Based Approaches and Application to Watershed, Coastal, and Ocean Resource Management	SS092 The Ecological Consequences of Evolution and Phenotypic Plasticity in Aquatic Ecosystems
3:30 - 4:00 pm	COFFEE BREAK - Courtyard and Prefunction Area 1A								
4:00 - 6:00 pm	SS034 Temperature Dependence of Consumer-re-source Interactions: New empirical & theoretical in	SS026 Integrative Research on the Biogeochemistry of Inland Waters in Northern High Latitudes	SS019 Influence of Water Levels & Water Level Fluctuations on the Ecology and Food Webs of Large Lakes and Reservoirs	SS056 Complexity in Coastal Systems	SS008 Understanding Mountain Lakes in a Changing World	SS023 Trophic Interactions in Marine Micro- and Mesozooplankton	SS045 Gas Exchange at the Water-Atmosphere Interface in Lakes, Rivers, Estuaries and the Open Ocean	SS014 Social-ecological Dynamics in Aquatic Ecosystems	SS065 Relevance of Host-microbe Interactions in Aquatic Ecosystem Functioning
7:00 - 10:00 pm	Ultimate Victoria Evening Event - Ogden Point Breakwater Pier B								

THURSDAY SCHEDULE-AT-A-GLANCE

Room	Carson Hall A	Carson Hall B	Carson Hall C	Colwood 1&2	Lecture Theater	Saanich 1&2	Oak Bay 1 & 2	Esquimalt	Sidney
9:00 - 10:30 am	SS055 Lakes They Are A-changing: How concurrent long-term changes interact to affect aquatic ecosystems	SS012 Integrating Ecosystems - linking biogeochemical cycles across aquatic and terrestrial boundaries	SS032 The Aquatic Carbon Pipe - where, when, and why is it active or passive?	SS005 Ecotones: Microbial community transition zones in aquatic systems	SS087 Cyanobacteria in Inland Waters: New monitoring, reporting, modelling and ecological research	SS024 Terrestrial Organic Matter in Aquatic Food Webs: Resource subsidy or subtraction?	SS009 Recent Advances in Aquatic Photochemistry	SS027 Advancing Knowledge and Management of HABs Through Interdisciplinary Collaboration	SS060 Sustainable Aquaculture: Issues, Tools, and Trends
10:30 - 11:00 am	COFFEE BREAK - Courtyard and Prefunction Area 1A								
11:00 am - 12:30 pm	<p>PLENARY AND AWARDS SESSION</p> <p>Plenary Speaker - Igor Klein for Claudia Kuenzer Department of Land Surface, Earth Observation Center (EOC), German Aerospace Center, DLR, Koeln, Germany</p> <p>Artists' Presentations</p> <p>Elizabeth "Liz" Miller, Professor in Communication Studies, Concordia University, Montreal, and Director, The Shoreline Project Buster Simpson, Installation/Public Art, Buster Simpson, LLC, Seattle, Washington, USA</p> <p>2018 John H. Martin Award - Robert Howarth Cornell University, Ithaca, New York, USA</p> <p>2018 Raymond L. Lindeman Award - Meredith Holgerson Portland State University, Portland, Oregon, USA</p>								
12:30 - 2:00 pm	LUNCH - WORKSHOPS AND AUXILIARY MEETINGS								
2:00 - 4:00 pm	SS055 Lakes They Are A-changing: How concurrent long-term changes interact to affect aquatic ecosystems	SS012 Integrating Ecosystems - linking biogeochemical cycles across aquatic and terrestrial boundaries	SS032 The Aquatic Carbon Pipe - where, when, and why is it active or passive?	SS074 Charting the Waters: Artists investigate aquatic worlds and environmental change	SS071 Crossing Disciplinary Boundaries Across Freshwater-Marine Continuum to Advance the Understanding of Harmful Algal Blooms (HABs)	SS024 Terrestrial Organic Matter in Aquatic Food Webs: Resource subsidy or subtraction?	SS017 Living Downstream from Shrinking Glaciers: Understanding the hydrology, geomorphology, ecology and biogeochemistry of glacier-fed streams	SS039 Observation Systems and Big Data are Unlocking New Insights into Aquatic Ecosystem Dynamics	SS060 Sustainable Aquaculture: Issues, Tools, and Trends
4:00 - 6:00 pm	POSTER SESSION AND RECEPTION Pavilion and Courtyard								

FRIDAY SCHEDULE-AT-A-GLANCE

Room	Carson Hall A	Carson Hall B	Carson Hall C	Colwood 1&2	Lecture Theater	Saanich 1&2	Oak Bay 1&2	Esquimalt	Sidney
8:30 - 10:00 am	SS054 Linking Microbial Ecology to Carbon Biogeochemistry Across Spatial Scales	SS035 Tipping the Scales: Examining broad-scale patterns and processes in limnology	SS058 Biogeochemical Transformations Across Terrestrial – Aquatic Interfaces	SS094 Zooplankton	SS078 Freshwater Cyanobacteria: Beyond eutrophication	SS086 Connecting the Dots: Signals of Global Change Effects in Freshwater and Marine Ecosystems	SS059 Biodiversity - Ecosystem Functioning Under Stochastic Environmental Forcing	SS049 Advances in Methods and Technologies for Studying Methane Cycling in Freshwater Ecosystems	
10:00 - 10:30 am	COFFEE BREAK - Courtyard and Prefunction Area 1A								
10:30 am - 12:00 pm	SS054 Linking Microbial Ecology to Carbon Biogeochemistry Across Spatial Scales	SS035 Tipping the Scales: Examining broad-scale patterns and processes in limnology	SS058 Biogeochemical Transformations Across Terrestrial – Aquatic Interfaces	SS094 + SS097 Zooplankton (3 TALKS) Aquatic Invasion Ecology (3 TALKS)	SS007 Cyanobacterial and Algal Metabolites: Occurrence, ecology, prediction, and management	SS064 Past, Present, and Future Phosphorus Cycling: From the mine to the deep sea	SS001 Oil and Water Do Mix: The fate, behavior and impact of dispersed oil droplets in the sea	SS049 Advances in Methods and Technologies for Studying Methane Cycling in Freshwater Ecosystems	
12:00 - 1:30 pm	LUNCH - WORKSHOPS AND AUXILIARY MEETINGS								
1:30 - 3:00 pm	SS057 Small Things Can Tell Big Stories: Algae as indicators in aquatic habitats	SS035 Tipping the Scales: Examining broad-scale patterns and processes in limnology	SS058 Biogeochemical Transformations Across Terrestrial – Aquatic Interfaces	SS097 Aquatic Invasion Ecology	SS007 Cyanobacterial and Algal Metabolites: Occurrence, ecology, prediction, and management	SS064 Past, Present, and Future Phosphorus Cycling: From the mine to the deep sea	SS001 Oil and Water Do Mix: The fate, behavior and impact of dispersed oil droplets in the sea	SS036 Linking -Omics to Eco-physiological Traits for the Study of Phytoplankton Acclimation &	
3:00 - 3:30 pm	COFFEE BREAK - Courtyard and Prefunction Area 1A								
3:30 - 4:30 pm	CLOSING PLENARY SESSION Plenary Speaker - Evelyn Gaiser Executive Director, School of Environment, Arts and Society; Professor, Department of Biological Sciences and Southeast Environmental Research Center, and Lead Principle Investigator, Florida Coastal Everglades Long Term Ecological Research Program, Florida International University								
4:30 - 6:00 pm	CLOSING MIXER - Courtyard and Prefunction Area								

MONDAY ORALS

SSOO2 IMPORTANCE OF WINTER AND SEASONALITY IN AQUATIC SYSTEMS

- Chair(s): Stephen Powers, Washington State University (steve.powers@wsu.edu)
Diane McKnight, University of Colorado (diane.mcknight@colorado.edu)
Bailey McMeans, Univ of Toronto Mississauga (bailey.mcmeans@utoronto.ca)
Ted Ozersky, Univ Minnesota Duluth (tozersky@d.umn.edu)
- Location: Lecture Theater
- 8:30 AM **Devlin, S.**; Doran, P.; Hawes, I.: BENTHIC MICROBIAL MATS IN MCMURDO DRY VALLEY LAKES: A PRODUCTIVE AND VIBRANT OASIS IN THE COLDEST DESERT IN THE WORLD[†]

TUESDAY ORALS

SSO02 IMPORTANCE OF WINTER AND SEASONALITY IN AQUATIC SYSTEMS

Chair(s): Stephen Powers, Washington State University (steve.powers@wsu.edu)
Diane McKnight, University of Colorado (diane.mcknight@colorado.edu)
Bailey McMeans, Univ of Toronto Mississauga (bailey.mcmeans@utoronto.ca)
Ted Ozersky, Univ Minnesota Duluth (tozersky@d.umn.edu)

Location: Lecture Theater

8:30 AM **Barrett, D.**; Wrona, F.; Prowse, T.: TRENDS IN UNDER-ICE PRODUCTIVITY IN SEASONALLY ICE-COVERED PONDS AS A RESULT OF SURFACE-COVER MANIPULATION

8:45 AM **Zakharova, E.**; Rémy, F.; Kostianoy, A.; Shimaraev, M.; Zdorovennov, R.; Suknev, A.: GIANT ICE RINGS ON LAKES BAIKAL AND TELETSKOYE AND FIELD OBSERVATIONS OF LENS-LIKE EDDIES IN THE MIDDLE BAIKAL (2016-2017)

9:00 AM **Henderson, S.**: OBSERVATIONS OF VELOCITY, STRATIFICATION, AND TURBULENCE IN A SMALL LAKE: FLOWS BEFORE, DURING, AND AFTER ICE-OFF

9:15 AM **Kuzyk, Z.**; Eastwood, R.; Ehn, J.; Heath, J.; Arragutainaq, L.: THE ROLE OF RIVER INFLOW ON THE FORMATION OF WINTER MIXED LAYERS IN FLAW LEADS OF SE HUDSON BAY, CANADA, UNDER A CHANGING HYDROLOGIC REGIME

9:45 AM **Rue, G.**; McKnight, D.: SEASONALITY OF A SUB-ALPINE LAKE: UNDERSTANDING EVOLVING PHYSICAL AND BIOGEOCHEMICAL CONTROLS ON AQUATIC ECOSYSTEM STRUCTURE UNDER ICE COVER

10:00 AM **Gagne, K.**; Guerard, J.: SEASONALITY INFLUENCES ON NATURAL ORGANIC MATTER (NOM) IN A SUB-ARCTIC SYSTEM: WINTER IMPACTS ON NOM AND GEOCHEMICAL COMPOSITION

SSO16 CHANGE IN LAKES AND RIVERS AT REGIONAL, CONTINENTAL AND GLOBAL SCALES

Chair(s): Hilary Dugan, University of Wisconsin-Madison (hdugan@wisc.edu)
Luke Winslow, Rensselaer Polytechnic (lawinslow@gmail.com)
David Butman, University of Washington (dbutman@uw.edu)

Location: Lecture Theater

2:00 PM **Hanson, P.**; Khandelwal, A.; Karpatne, A.; Jia, X.; Dugan, H.; Read, J.; Kumar, V.: GLOBAL MONITORING SYSTEM LEADS TO NEW INSIGHTS FOR OUR CHANGING INLAND WATERS

2:15 PM **Herlihy, A.**; Stoddard, J.; Paulsen, S.; Pollard, A.: SPATIAL CHANGES IN THE ECOLOGICAL CONDITION OF LAKES ACROSS THE CONTERMINOUS UNITED STATES SINCE 2000

2:30 PM **Kellogg, D.**; Hollister, J.; Kreakie, B.; Shivers, S.; Herron, E.; Green, L.; Gold, A.: 25 YEARS OF WATER QUALITY CHANGE IN RHODE ISLAND LAKES AND PONDS

2:45 PM **Harms, T.**; Hood, J.; Scheuerell, M.: TROPHIC INTERACTIONS AND THE LONG-TERM STABILITY OF AQUATIC ECOSYSTEMS

3:00 PM **Kraemer, S.**; Barbosa da Costa, N.; Shapiro, B.; Walsh, D.: LAND USE STRUCTURES LAKE BACTERIAL COMMUNITIES ACROSS EASTERN CANADA

3:15 PM **Kromrey, N.**: CONTRIBUTION OF METALS AND SALTS TO MAINSTEM RIVERS IN ALBERTA'S SOUTH SASKATCHEWAN RIVER BASIN. A SYNOPTIC STUDY.

3:45 PM **Marcé, R.**; Light, T.; Catalán, N.; Obrador, B.; Gómez-Gener, L.; Koschorreck, M.; Borrego, C.; Arce, M.; Singer, G.; von Schiller, D.: GLOBAL DRYING OF LAKES AND THE FATE OF SEDIMENTARY CARBON¹

SSO20 LIVING IN A VARIABLE WORLD: STUDYING THE ROLE AND CONSEQUENCE OF VARIANCE, COVARIANCE, AND EXTREMES IN AQUATIC ECOSYSTEMS

Chair(s): Alexander Wacker, University of Potsdam, Germany (wackera@uni-potsdam.de)
Sylvain Pincebourde, Université François Rabelais, CNRS, France (sylvain.pincebourde@univ-tours.fr)
Apostolos-Manuel Koussoroplis, Université Clermont Auvergne (a-manuel.koussoroplis@uca.fr)

Location: Colwood 1&2

8:30 AM **Helmuth, B.**; Barrett, T.; Choi, F.; Cryan, A.; Dong, Y.; Gouhier, T.; Müftü, S.; Rilov, G.: WEATHERING THE IMPACTS OF CLIMATE CHANGE: CAN MICROHABITATS SERVE AS "RESCUE SITES"?¹

8:45 AM **Loken, L.**; Butitta, V.; Stanley, E.: SPATIAL HETEROGENEITY WITHIN LAKE ECOSYSTEMS: DOMINANT SCALES OF VARIATION FOR PHYSICAL AND BIOLOGICAL VARIABLES

^T REPRESENTS TUTORIAL PRESENTATIONS

SSO34 TEMPERATURE DEPENDENCE OF CONSUMER-RESOURCE INTERACTIONS: NEW EMPIRICAL AND THEORETICAL INSIGHTS

- Chair(s): Wojciech Uszko, Umea University (wojciech.uszko@umu.se)
 Joey Bernhardt, University of British Columbia (joey.bernhardt@biodiversity.ubc.ca)
 Colin Kremer, MSU (kremerco@msu.edu)
 Elena Litchman, MSU (litchman@msu.edu)
- Location: Carson Hall A
- 4:00 PM **Uszko, W.:** WARMING EFFECTS ON CONSUMER-RESOURCE INTERACTIONS: CURRENT STATE AND NEW DEVELOPMENTS[†]
- 4:30 PM **Lindmark, M.;** Ohlberger, J.; Huss, M.; Gårdmark, A.: SPECIES INTERACTIONS DETERMINE EFFECTS OF WARMING ON STABILITY IN A STAGE-STRUCTURED FOOD CHAIN
- 4:45 PM **Sentis, A.;** Binzer, A.; Boukal, D.: PHENOTYPIC PLASTICITY, CLIMATE CHANGE, AND THEIR INFLUENCES ON FOOD-WEB PERSISTENCE
- 5:00 PM **Sunday, J.;** Bernhart, J.; Harley, C.; O'Connor, M.: AN EMPIRICAL TEST OF THE RELATIONSHIP BETWEEN COMPETITIVE ABILITY AND TEMPERATURE
- 5:15 PM **Mock, T.:** THE IMPACT OF TEMPERATURE ON MARINE PHYTOPLANKTON: FROM GENOMES TO BIOTIC INTERACTIONS
- 5:30 PM **Wang, H.;** Chen, Y.; Kiang, Y.; Heino, M.: LIFE HISTORY-TEMPERATURE CORRELATIONS PROVIDE EFFICIENT ASSESSMENTS FOR FISHES IN THE PACIFIC OCEAN

SSO37 FISH ECOLOGY

- Chair(s): Jonathan Studio, James Madison University (studioja@dukes.jmu.edu)
 Dr. Christine May, James Madison University (maycl@jmu.edu)
 Patrick Polte, Thuenen-Institute of Baltic Sea Fisheries (patrick.polte@thuenen.de)
 Dr. Paul Kotterba, Hamburg University (paul.kotterba@posteo.de)
- Location: Colwood 1&2
- 8:30 AM **May, C.:** THE WATERFALL PARADOX: BARRIERS THAT ISOLATE FISH POPULATIONS IN IDEAL HABITATS
- 8:45 AM **Studio, J.;** May, C.: COMPETITION AND PREDATION: INTERACTIONS BETWEEN AMERICAN EELS (ANGUILLA ROSTRATA) AND BROOK TROUT (SALVELINUS FONTINALIS) IN VIRGINIA MOUNTAIN STREAMS
- 9:00 AM **Zhu, X.;** Cornic, M.; Benchetrit, J.; Cairns, D.: APPLICATION OF SEMI-QUANTITATIVE MODELING APPROACHES TO ASSESS VULNERABILITY REFERENCE POINTS OF THE AMERICAN EEL IN EASTERN CANADA
- 9:15 AM **Cornic, M.;** Zhu, X.; Cairns, D.: AMERICAN EEL (ANGUILLA ROSTRATA) CPUE STANDARDIZATION IN LAKE ONTARIO AND THE UPPER ST. LAWRENCE RIVER
- 9:30 AM **Jacobson, P.;** Gårdmark, A.; Östergren, J.; Casini, M.; Huss, M.: POPULATION- AND SIZE-SPECIFIC DISTRIBUTION PATTERNS AND SIZE-DEPENDENT PREY AVAILABILITY AFFECT ATLANTIC SALMON DIET AND PERFORMANCE AT SEA
- 9:45 AM **Simmons, J.;** Feher, K.; Regan, J.; Tromboni, F.; Chandra, S.: HABITAT UTILIZATION, DIVERSITY, AND INFLUENCE OF SALINITY AND SURFACE AREA ON FISHES IN TERMINAL LAKES

- 10:00 AM **DeJong, R.;** Johnston, T.; Keller, B.; Gunn, J.; Swanson, H.: LIFE HISTORY CHARACTERISTICS OF LAKE WHITEFISH (COREGONUS CLUPEAFORMIS), CISCO (COREGONUS ARTEDI), AND NORTHERN PIKE (ESOX LUCIUS) IN HUDSON BAY LOWLAND RIVERS
- 10:15 AM **Sabel, M.;** Eckmann, R.; Straile, D.: LONG-TERM CHANGES IN THE STRUCTURE AND TRAITS OF THE LITTORAL FISH COMMUNITY IN A LARGE, PRE-ALPINE EUROPEAN LAKE
- 2:00 PM **Vasbinder, K.;** Ainsworth, C.; Zapfe, G.; Weisberg, R.; Liu, Y.: USING GENERALIZED ADDITIVE MODELING TO INVESTIGATE LARVAL DEPTH AT AGE TOWARDS IDENTIFYING LARVAL SOURCES AND SINKS
- 2:15 PM **Kotterba, P.;** von Nordheim, L.; Moll, D.; Polte, P.: SPAWNING BEHAVIOR OF ATLANTIC HERRING (CLUPEA HARENGUS) AND ITS DEPENDENCE ON LITTORAL MACROPHYTES
- 2:30 PM **von Nordheim, L.;** Kotterba, P.; Moll, D.; Polte, P.: SURVIVAL OF ATLANTIC HERRING EGGS ATTACHED TO AQUATIC VEGETATION ON BALTIC SEA SPAWNING BEDS
- 2:45 PM **Polte, P.;** Kotterba, P.; Moll, D.; Nordheim, von, L.: MULTIPLE FUNCTIONS OF LITTORAL HABITATS FOR EARLY LIFE-STAGES OF OCEANIC FISHES

SSO41 HOW MICROBIAL DISPERSAL AND SHAPE DETERMINE LOCAL STRUCTURE AND FUNCTIONING OF AQUATIC ASSEMBLAGES

- Chair(s): Clara Ruiz-González, Instituto de Ciencias del Mar (ICM-CSIC) (clara.ruiz.glez@gmail.com)
 Jérôme Comte, Institut National de la Recherche Scientifique (INRS-ETE) (comte.j@gmail.com)
 Peter Hannes, École Polytechnique Fédérale de Lausanne (hannes.peter@epfl.ch)
 Stuart Humphries, University of Lincoln, UK (shumphries@lincoln.ac.uk)
 Lee Karp-Boss, University of Maine (lee.karp-boss@maine.edu)
 Evan Variano, UC Berkeley (variano@berkeley.edu)
- Location: Sidney
- 8:30 AM **Ionescu, D.;** Bizic-Ionescu, M.; Karnatak, R.; Musseau, C.; Onandia, G.; Berger, S.; Nejstgaard, J.; Jeschke, J.; Lischheid, G.; Gessner, M.; Wollrab, S.; Grossart, H.: KETTLE HOLES AS MODEL META-ECOSYSTEMS TO STUDY LAND-USE EFFECTS ON AQUATIC BIODIVERSITY
- 8:45 AM **Reche, I.;** Batanero, G.; Joglar, V.; Green, A.; Martin-Platero, A.: FLAMINGOS AS DISPERSAL VECTORS OF RARE AQUATIC BACTERIA
- 9:15 AM **Byron, M.;** Angle, B.; Rau, M.: EXPLORING NON-HOMOGENEOUS, NON-SPHERICAL PARTICLES IN FLOW: HOW DO WE QUANTIFY INERTIA?[†]
- 9:30 AM **Sutherland, K.;** Conley, K.: MICROBE SHAPE GOVERNS PARTICLE SELECTION BY ABUNDANT MARINE GRAZERS[†]
- 9:45 AM **Schuech, R.;** Hoehfurtner, T.; Smith, D.; Humphries, S.: MOTILE CURVED BACTERIA ARE PARÉTO-OPTIMAL
- 10:00 AM **Guadayol, Ó.;** Schuech, R.; Humphries, S.: OPTIMAL ASPECT RATIOS FOR EXPLORATION AND EXPLOITATION IN CHEMOTACTIC BACTERIA
- 10:15 AM **El Baidouri, F.;** Suzuki, S.; Venditti, C.; Humphries, S.: PHENOTYPIC RECONSTRUCTION OF THE LAST COMMON ANCESTOR OF BACTERIA: ECOLOGICAL AND EVOLUTIONARY IMPLICATIONS.

[†] REPRESENTS INVITED PRESENTATIONS

SSO44 BRINGING THE "NATURAL FLOW REGIME" TO LAKES

- Chair(s): Catherine Hein, Wisconsin Department of Natural Resources (clhein@gmail.com)
Peter Lisi, UW-Madison (peter.j.lisi@gmail.com)
Noah Lorttig, UW-Madison (nlorttig@wisc.edu)
- Location: Saanich 1&2
- 8:30 AM **Hein, K.:** LAKE LEVEL FLUCTUATIONS: A SYNTHESIS AND PROSPECTUS FOR THE FUTURE^T
- 9:00 AM Hein, C.; Lorttig, N.; **Wu, Z.:** LINKING GROUNDWATER AND CLIMATE TO UNDERSTAND LONG-TERM LAKE LEVEL FLUCTUATIONS IN WISCONSIN^T
- 9:15 AM **Pereles, K.;** Vander Zanden, J.: HETEROGENEITY OF LAKE LEVEL AND SURFACE AREA RESPONSES DURING A DROUGHT IN NORTH TEMPERATE LAKES^T
- 9:30 AM **Lisi, P.;** Hein, C.: DIFFERENT RESPONSES IN LAKE WATER CLARITY TO NATURAL VARIATION IN LAKE LEVEL.¹
- 9:45 AM **Keeton, J.;** Gaeta, J.: MULTI-YEAR DROUGHT AND LITTORAL HABITAT LOSS ACROSS THE UNITED STATES: AN EVALUATION OF LAKES SURVEYED IN THE NATIONAL LAKES ASSESSMENT^T
- 10:00 AM **Gaeta, J.:** MULTI-YEAR DROUGHT, LITTORAL HABITAT, AND THE EXTINCTION POTENTIAL OF A SHORT-LIVED FISH SPECIES OF CONCERN UNDER FUTURE CLIMATE CONDITIONS^T
- 10:15 AM **Abirhire, O.;** Hunter, K.; Beadle, J.; Emmons, S.; Hudson, J.: INVESTIGATING THE LONG-TERM PATTERN OF TURBIDITY IN LAKE DIEFENBAKER USING LANDSAT-8 OLI IMAGERY

SSO45 GAS EXCHANGE AT THE WATER-ATMOSPHERE INTERFACE IN LAKES, RIVERS, ESTUARIES AND THE OPEN OCEAN

- Chair(s): Judith Rosentreter, Southern Cross University, Lismore, Australia (judith.rosentreter@scu.edu.au)
Yves Prairie, University of Quebec (prairie.yves@uqam.ca)
Paul del Giorgio, University of Quebec at Montreal (del_giorgio.paul@uqam.ca)
Bradley Eyre, Southern Cross University, Lismore, Australia (bradley.eyre@scu.edu.au)
- Location: Oak Bay 1&2
- 2:00 PM **Ulseth, A.;** Hammer, F.; Horgby, Å.; McGinnis, D.; Hall, R.; Battin, T.: GAS-EXCHANGE IN HIGH-ENERGY STREAMS: IMPLICATIONS OF BUBBLES AND SCALING CO₂ FLUXES
- 2:15 PM **Kokic, J.;** Sahlée, E.; Sobek, S.; Vachon, D.; Wallin, M.: HIGH SPATIAL VARIABILITY OF GAS TRANSFER VELOCITY IN STREAMS REVEALED BY TURBULENCE MEASUREMENTS – IMPLICATIONS FOR SCALING GREENHOUSE GAS EMISSIONS
- 2:30 PM **Caldow, C.;** Warneke, T.; Hilke, I.; Fischer, H.; Notholt, J.; Paton-Walsh, C.; Griffith, D.: DRIVERS OF WATER-ATMOSPHERE GREENHOUSE GAS (CO₂, CH₄ AND N₂O) EXCHANGE IN TWO OF THE WORLD'S MAJOR RIVERS: THE ELBE AND THE MURRAY
- 2:45 PM **Brigham, B.;** Montero, A.; Juhl, A.; Bird, J.; O'Mullan, G.: COUPLING BETWEEN ANTHROPOGENIC INPUTS AND ENHANCED CH₄ AND CO₂ EFFLUX VALUES IN THE HUDSON RIVER ESTUARY
- 3:00 PM **Herrero Ortega, S.;** Romero González-Quijano, C.; Casper, P.; Kleinschmit, B.; Singer, G.; Gessner, M.: METHANE EMISSIONS FROM URBAN FRESHWATERS: SPATIO-TEMPORAL PATTERNS, ENVIRONMENTAL DRIVERS AND THE FOOTPRINT OF A METROPOLITAN AREA

- 3:15 PM **Kim, J.;** Prairie, Y.: ASSESSING THE CONTRIBUTION OF CHEMICAL ENHANCEMENT TO CO₂ EXCHANGE ACROSS THE AIR-WATER INTERFACE IN EUTROPHIC LAKES OF QUEBEC
- 4:00 PM **Verspagen, J.;** Meijer, M.; Dean, J.; van Huissteden, K.; Dolman, H.; Huisman, J.: THE IMPACT OF A DENSE PHYTOPLANKTON BLOOM ON THE INFLUX OF ATMOSPHERIC CO₂ INTO A EUTROPHIC LAKE
- 4:15 PM **Desrosiers, K.;** Del Sontro, T.; del Giorgio, P.: INTEGRATING THE OVERALL EFFECTS OF PLANT HABITATS ON THE CH₄ AND CO₂ BUDGET OF A BOREAL LAKE
- 4:30 PM **Mylykangas, J.;** Jilbert, T.; Hietanen, S.: METHANE DYNAMICS IN A EUTROPHIED BOREAL ESTUARY
- 4:45 PM **Yao, H.;** Hu, X.; Montagna, P.: CO₂ FLUX IN NORTHWESTERN GULF OF MEXICO ESTUARIES – A HYDROLOGICAL CONTROL?
- 5:00 PM **McCutcheon, M.;** Hu, X.: UNDERSTANDING UNCERTAINTIES IN THE CHANGING CARBON BUDGET OF ESTUARIES: A CASE STUDY IN THE NORTHWESTERN GULF OF MEXICO

SSO50 CONTROL OF ALGAL BLOOMS

- Chair(s): Weiping Hu, Nanjing Institute of Geography and Limnology, CAS (wphu@niglas.ac.cn)
Johann Rudolf Strickler, University of Wisconsin (strlab1@uwvm.edu)
- Location: Carson Hall C
- 8:30 AM **Hu, W.:** A NEW METHOD FOR THE REDUCTION OF THE INNER POLLUTION LOADING AND ALGAE SEEDS IN LARGE SHALLOW EUTROPHICATION LAKE
- 9:00 AM **Zhang, Y.;** Hu, W.: THE ANALYSIS OF THE INFLUENCE OF WIND WAVE FIELD ON THE DISTRIBUTION OF CYANOBACTERIA
- 9:15 AM **Duan, H.:** MODIS OBSERVATIONS OF CYANOBACTERIAL RISKS IN A EUTROPHIC LAKE: IMPLICATIONS FOR LONG-TERM SAFETY EVALUATION IN DRINKING-WATER SOURCE
- 9:30 AM **Cho, K.;** Park, Y.: EVALUATING ENVIRONMENTAL INFLUENCES ON TOXIC ALGAL BLOOMS USING HYPERSPECTRAL IMAGES
- 9:45 AM **Peng, Z.;** Weiping, H.: QUANTIFYING FORECAST UNCERTAINTY OF WEEKLY CYANOBACTERIAL BLOOM FORECASTS USING A BAYESIAN JOINT PROBABILITY MODEL
- 10:00 AM **Anbiah, R.;** Dale, B.; Thankamony, R.; AlRaisi, A.; Perumal, P.; AlHosani, S.: DINOFLAGELLATE CYSTS AS INDICATORS FOR THE RISK OF HARMFUL ALGAL BLOOMS FROM COASTAL DEVELOPMENT PROJECTS: A NEW TOOL FOR COASTAL MANAGEMENT
- 2:00 PM **Chen, k.:** LAKESIDE WETLAND AS A TRAP IN CYANOBACTERIA AND NUTRIENT REMOVAL AND CAPTURE ABILITY IN LAKE CHAOHU
- 2:15 PM **GU, X.;** Chen, k.; Zhang, L.: PRELIMINARY EVIDENCE OF NUTRIENT'S RELEASE FROM SEDIMENT IN RESPONSE TO OXYGEN ACROSS BENTHIC OXIDATION LAYER BY A LONG-TERM FIELD TRIAL
- 2:30 PM **Deng, J.;** Hu, W.; Zhu, J.; Chen, F.: VARIATIONS IN THE DISTRIBUTION OF CHL-A AND PREDICTION USING A MULTIPLE REGRESSION MODEL
- 2:45 PM **Li, W.;** Zhu, G.; Zhang, Y.: NUMERICAL FORECASTING OF SHORT-TERM ALGAE-INDUCED BLACK BLOOM IN EUTROPHIC SHALLOW LAKE : A CASE STUDY OF LAKE TAIHU, CHINA
- 3:00 PM **Lai, X.:** SENSITIVITY AND UNCERTAINTY ANALYSIS FOR WATER QUALITY MODELING IN TAIHU LAKE

^T REPRESENTS TUTORIAL PRESENTATIONS

3:15 PM **Yin, H.:** REMEDIATION OF INTERNAL PHOSPHORUS LOADS WITH MODIFIED CLAYS, INFLUENCE OF FLUVIAL SUSPENDED PARTICULATE MATTER AND RESPONSE OF THE BENTHIC MACROINVERTEBRATE COMMUNITY.

SSO56 COMPLEXITY IN COASTAL SYSTEMS

Chair(s): Robert F. Chen, University of Massachusetts Boston (bob.chen@umb.edu)
Shannon Davis, UMassBoston (shannon.davis002@umb.edu)

Location: Colwood 1&2

4:00 PM **Ferrera, I.;** Auladell, A.; Reñé, A.; Alacid, E.; Basterretxea, G.; Garcés, E.: PATTERNS OF BACTERIOPLANKTON DIVERSITY AND COMMUNITY STRUCTURE ALONG CONTRASTING CROSS-SHORE ENVIRONMENTAL GRADIENTS IN THE NORTHWESTERN MEDITERRANEAN COAST

4:15 PM **Camilleri, A.;** Ozersky, T.: NUTRIENT LIMITATION OF UPPER GREAT LAKES PERIPHYTON ACROSS LARGE SPATIAL AND ENVIRONMENTAL GRADIENTS

4:30 PM **Kodama, T.;** Takada, Y.; Iguchi, N.; Morimoto, H.; Goto, T.: VARIATIONS IN ZOOPLANKTON COMMUNITY IN THE COASTAL AREA OF THE SEA OF JAPAN SINCE 1999

4:45 PM **Saganash, N.;** Blackned, W.; Belanger, S.; Cheezo, N.; Courcelles, R.; Dunn, M.; del Giorgio, P.; Durocher, C.; Ehn, J.; Gilbert, J.; Gosselin, M.; Kuzyk, Z.; Neumeier, U.; Short, F.; Tapiatic, R.; Tremblay et al., A.: EY YOU ISTCHEE EELGRASS RESEARCH PROJECT, JAMES BAY EAST COAST

5:00 PM **Tremblay, A.;** Métivier, V.; Massicotte, B.; Dupuis, P.: MONITORING SALT WATER INTRUSION IN RUPERT BAY, JAMES BAY, CANADA, AFTER PARTIAL DIVERSION OF A MAJOR TRIBUTARY

5:15 PM **Chen, R.;** Kirshen, P.; Byrnes, J.; Lockwood, L.; Borrelli, M.: SEA-LEVEL RISE IN BOSTON HARBOR: A COMPLEX, UNCERTAIN, CHALLENGING ISSUE

5:30 PM **Sparks, E.;** Temple, N.; Martin, S.; Firth, D.; Cebrian, J.: FUNCTIONALITY AND EFFECTIVENESS OF LARGE-SCALE LIVING SHORELINE PROJECTS

SSO65 RELEVANCE OF HOST-MICROBE INTERACTIONS IN AQUATIC ECOSYSTEM FUNCTIONING

Chair(s): Ulisse Cardini, Stazione Zoologica Anton Dohrn (SZN), Italy (ulisse.cardini@szn.it)
Grazia Marina Quero, SZN, Italy (grazia.quero@ve.ismar.cnr.it)
Marco Bartoli, University of Parma, Parma, Italy (marco.bartoli@unipr.it)
Jillian Petersen, University of Vienna, Vienna, Austria (petersen@microbial-ecology.net)
Rachel Foster, Stockholm University, Stockholm, Sweden (rachel.foster@su.se)

Location: Sidney

4:00 PM **Cardini, U.:** THE BIOGEOCHEMISTRY OF HOST-MICROBE INTERACTIONS[†]

4:15 PM **Beinart, R.:** LINKING THE PHYSIOLOGY OF AQUATIC SYMBIONTS TO ECOSYSTEM PROCESSES¹

4:30 PM **Pernice, M.;** Alneberg, J.; Sundh, J.; Bunse, C.; Pontiller, B.; Andersson, A.; Pinhassi, J.; Foster, R.: QUORUM SENSING AND CROSS-DOMAIN COMMUNICATION IN MARINE ENVIRONMENT

4:45 PM **Jackrel, S.;** White, J.; Buffin, K.; Hayden, K.; Sarnelle, O.; Deneff, V.: DISENTANGLING THE ROLE OF HOSTS VERSUS THEIR BACTERIAL ASSOCIATES IN DRIVING INTRASPECIFIC NICHE DIFFERENCES AMONG PHYTOPLANKTON

5:00 PM **Garcia, Y.;** Costello, J.; Strickler, J.; Lopes, R.: WHO IS THE WINNER IN A DIATOM-CILIATE CONSORTIUM: ONE, BOTH OR NONE?

5:30 PM **George, E.;** Roach, T.; Quinn, R.; Arts, M.; Sean, B.; Huckeba, J.; Haas, A.; Little, M.; Silveira, C.; Wegley Kelly, L.; Doorstein, P.; Rohwer, F.; Keeling, P.: MICROBIOME SPATIAL VARIATION WITHIN A CORAL HOLOBIONT

5:45 PM **Gramer, D.;** Rosales, D.; Sinigalliano, D.; Gidley, D.; Putman, D.; Staley, D.; Chun, D.; Sadowsky, D.; Lopez, D.; Hendee, D.: PHYSICAL HABITAT AS A DRIVER OF CORAL REEF MICROBIOME COMMUNITY STRUCTURE: NEXT-GENERATION-SEQUENCING AND OCEANOGRAPHY

SSO75 INTEGRATING SCIENCE AND MANAGEMENT AT THE COASTAL INTERFACE: LANDSCAPE-BASED APPROACHES AND APPLICATION TO WATERSHED, COASTAL, AND OCEAN RESOURCE MANAGEMENT

Chair(s): Franklin B Schwing, NOAA NMFS (franklin.schwing@noaa.gov)
Roger Pulwarty, NOAA ESRL (roger.pulwarty@noaa.gov)

Location: Esquimalt

2:00 PM **Pulwarty, R.;** Schwing, F.: EXTREMES, SLOW ONSETS, AND FAST REFLEXES

2:15 PM **Robinson, E.:** INTEGRATING ECOSYSTEMS, DISCIPLINES, AND PARTNERSHIPS TO ADDRESS MANAGEMENT-RELEVANT QUESTIONS IN MARINE PROTECTED AREAS OF NORTHERN CALIFORNIA

2:30 PM **Johnson, L.;** Kelly, J.; Allan, J.; Bartsch, W.; Cai, M.; Smith, S.; Yurista, P.: USE OF A NEW ANTHROPOGENIC STRESSOR SUITE IN STRESSOR-RESPONSE ANALYSES FOR THE GREAT LAKES NEARSHORE ZONE

2:45 PM **Lindley, S.;** Danner, E.; Hendrix, N.: MANAGING WATER AND SALMON IN A HIGHLY MODIFIED RIVER BASIN: APPLICATION OF A COUPLED MODELING SYSTEM

3:00 PM **Seitzinger, S.:** MANAGING THE WATERSHED-COASTAL-OCEAN CONTINUUM IN THE ERA OF CLIMATE NON-STATIONARITY

3:15 PM **Schwing, F.;** Pulwarty, R.: RESOURCE, ECOLOGICAL, AND HUMAN CONNECTIONS ACROSS THE COASTAL INTERFACE: CHALLENGES AND OPPORTUNITIES FOR AQUATIC SCIENTISTS AND MANAGERS

SSO83 SOURCES, TROPHIC TRANSFER, AND UTILIZATION OF DIETARY NUTRIENTS IN AQUATIC ECOSYSTEMS: CURRENT STATUS AND FUTURE CHALLENGES

Chair(s): Martin Kainz, WasserCluster Lunz - Biological Station (martin.kainz@donau-uni.ac.at)
Fen Guo, WasserCluster Lunz (fen.guo@donau-uni.ac.at)
Michael T. Brett, University of Washington, Seattle (mtbrett@u.washington.edu)

Location: Carson Hall A

8:30 AM **M. Nielsen, J.;** L. Clare, E.; Hayden, B.; T. Brett, M.; Burian, A.; Kratina, P.: DIET TRACING IN ECOLOGY: METHOD COMPARISON AND SELECTION^{††}

8:45 AM **Richoux, N.;** Moyo, S.: NUTRIENT TRANSFERS FROM RIVER TO LAND VIA EMERGING INVERTEBRATES

9:00 AM **Gladyshev, M.;** **Sushchik, N.;** Makhutova, O.; Glushchenko, L.; Rudchenko, A.; Makhrov, A.; Borovikova, E.; Dgebuadze, Y.: FATTY ACID COMPOSITION AND CONTENTS OF SEVEN COMMERCIAL FISH SPECIES OF GENUS COREGONUS FROM RUSSIAN SUBARCTIC WATER BODIES

[†] REPRESENTS INVITED PRESENTATIONS

- 9:15 AM **Makhutova, O.**; Shulepina, S.; Gladyshev, M.: THE EFFECT OF SOME ECOLOGICAL FACTORS ON FATTY ACID CONTENT AND COMPOSITION OF BENTHIC INVERTEBRATE GAMMARUS LACUSTRIS, VALUABLE FOOD SOURCE FOR FISH
- 9:30 AM **Martin-Creuzburg, D.**; Kowarik, C.; Straile, D.: CROSS-ECOSYSTEM FLUXES: EXPORT OF POLYUNSATURATED FATTY ACIDS FROM AQUATIC TO TERRESTRIAL ECOSYSTEMS
- 9:45 AM **Mackinnon, J.**; Parrish, C.; Marmillot, V.; Tremblay, J.: ESSENTIAL FATTY ACIDS AND ENERGY TRANSFER IN PLANKTON IN THE CANADIAN ARCTIC

- 1:45 PM **McCrackin, M.**; Muller-Karulis, B.; Gustafsson, B.; Howarth, R.; Humborg, C.; Svanbäck, A.; Swaney, D.: A SIMPLE MODEL OF LEGACY PHOSPHORUS IN THE BALTIC SEA DRAINAGE BASIN
- 2:00 PM **Minardo, C.**; Curie, F.; Jullian, Y.; Gassama, N.; Moatar, F.: HIGH TEMPORAL RESOLUTION EUTROPHICATION MODEL FOR LARGE HYDROGRAPHIC NETWORKS
- 2:15 PM **Vilmin, L.**; Mogollón, J.; van Hoek, W.; Beusen, A.; Bouwman, A.: ASSESSING TRANSFERS OF DIFFERENT PHOSPHORUS FORMS IN GLOBAL WATERSHEDS USING PROCESS-BASED MODELS
- 2:30 PM **Mogollón, J.**; Vilmin, L.; Beusen, A.; Bouwman, A.: SPATIOTEMPORAL VARIATIONS IN NITROGEN:PHOSPHORUS RATIOS IN FRESHWATER AND COASTAL SYSTEMS

SSO78 FRESHWATER CYANOBABS: BEYOND EUTROPHICATION

Chair(s): Gretchen Rollwagen-Bollens, Washington State University (rollboll@wsu.edu)
Anas Ghadouani, University of Western Australia (anas.ghadouani@uwa.edu.au)

Location: Lecture Theater

- 8:30 AM **Xiao, M.**; O'Brien, K.; Adams, M.; Hamilton, D.; Burford, M.: ARE NEW APPROACHES TO PREDICTING CYANOBACTERIAL BLOOMS AND SPECIES DOMINANCE NEEDED? – AN ANALYSIS OF DATA ON FACTORS DRIVING GROWTH RESPONSES.
- 8:45 AM **Deutsch, E.**; **Alameddine, I.**: USING STRUCTURAL EQUATION MODELING TO UNDERSTAND MICROCYSTIS DOMINANCE IN A SEMI-ARID HYPEREUTROPHIC RESERVOIR
- 9:00 AM **Ghadouani, A.**; Sinang, S.; Song, H.; Barrington, D.; Reichwaldt, E.; Coggins, L.: CAN MULTIPLE STRESSORS IN URBAN SYSTEMS INDUCE TOXIN PRODUCTION?
- 9:15 AM **Wilkinson, G.**; Moody, E.; Fleck, R.; Grigel, H.: PREDICTING TOXIC ALGAL BLOOMS IN EUTROPHIC RECREATIONAL LAKES
- 9:30 AM **Rollwagen-Bollens, G.**; Lee, T.; Rose, V.; Zimmerman, J.; Bollens, S.: GOING BEYOND EUTROPHICATION AS THE DRIVER OF CYANOBACTERIA HARMFUL ALGAL BLOOMS: VANCOUVER LAKE, WASHINGTON, USA AS A CASE STUDY
- 9:45 AM **Weinke, A.**; Knapp, K.; Liu, Q.; Biddanda, B.: COMPLEX INTERACTIONS OF SEASONAL STRATIFICATION, HYPOXIA, WIND-EVENTS, AND INTRUSIONS MAY PROMOTE LATE-SUMMER HABS IN A GREAT LAKES ESTUARY

SSO86 CONNECTING THE DOTS: SIGNALS OF GLOBAL CHANGE EFFECTS IN FRESHWATER AND MARINE ECOSYSTEMS

Chair(s): John F. Schalles, Creighton University (JohnSchalles@creighton.edu)
Tom W. Bell, University of California, Los Angeles (tbell@ucsb.edu)

Location: Saanich 1&2

- 8:30 AM **Schalles, J.**; O'Donnell, J.; Hladik, C.; Nealy, N.; Mizoguchi, T.; Pennings, S.: MULTIDECADAL BIOMASS DECLINES AND CONTROLLING VARIABLES FOR THE KEYSTONE SALT MARSH SPECIES, SPARTINA ALTERNIFLORA, IN COASTAL GEORGIA

^T REPRESENTS TUTORIAL PRESENTATIONS

- 8:45 AM **Bell, T.**; Allen, J.; Cavanaugh, K.; Siegel, D.: SEPARATING POTENTIAL GLOBAL CHANGE TRENDS FROM LOW FREQUENCY CLIMATE OSCILLATIONS IN NORTHEAST PACIFIC KELP FORESTS
- 9:00 AM **Johannessen, S.**; Macdonald, R.; Wright, C.: A YEAR WITH NO WINTER: THE EFFECTS OF THE 2013-2015 NORTH PACIFIC WARM ANOMALY ON PARTICLE FLUX AND COMPOSITION IN A CANADIAN FJORD
- 9:15 AM **Shatwell, T.**; Gessner, M.; Conrad, J.; Hölker, F.: MODELLING EFFECTS OF ARTIFICIAL LIGHT AT NIGHT ON LAKE TROPHIC INTERACTIONS MEDIATED BY DIEL VERTICAL MIGRATION
- 9:30 AM **Ohlberger, J.**; Schindler, D.; Cline, T.; Ward, E.; Lewis, B.: DEMOGRAPHIC CHANGES IN CHINOOK SALMON AND SOCKEYE SALMON ACROSS THE NORTHEAST PACIFIC
- 9:45 AM **Chezik, K.**; Wilson, S.; Moore, J.: SPATIAL PATTERNS OF PHENOLOGICAL MATCH-MISMATCH IN PINK SALMON

SSO94 ZOOPLANKTON

- Chair(s): Shelley E. Arnott, Queen's University (arnotts@queensu.ca)
- Location: Colwood 1&2
- 8:30 AM **Saiz, E.**; Calbet, A.; Griffell, K.: TRAIT-DEPENDENT EFFECTS OF CALORIC RESTRICTION IN MARINE COPEPODS
- 8:45 AM **Karakas, F.**; Maas, A.; Murphy, D.: SWIMMING OF AN ATLANTID HETEROPOD
- 9:00 AM **Buermans, J.**; Lemon, D.; Taylor, C.; Lembke, C.; DeCollibus, C.; Jarvis, T.: INTEGRATING ECHOSOUNDERS IN OCEAN GLIDERS: SYNOPTIC MEASURES OF WATER COLUMN PHYSICS AND BIOLOGY
- 9:15 AM **Guan, L.**; Sastri, A.; Hsieh, C.; Dewey, R.: DETECTING MULTI-SCALE TEMPORAL DYNAMICS OF ACOUSTICALLY ESTIMATED ZOOPLANKTON BIOMASS IN SAANICH INLET (BRITISH COLUMBIA, CANADA) VIA HIGH-RESOLUTION OCEAN OBSERVATORY SYSTEM
- 9:30 AM **Clardy, T.**; Heinle, M.; Al-Nuwairah, M.; Qurban, M.: SEASONAL PATTERNS IN THE COASTAL ZOOPLANKTON COMMUNITIES OF THE ARABIAN GULF
- 9:45 AM **Balazy, K.**; Trudnowska, E.; Błachowiak-Samołyk, K.: AVAILABILITY OF KEY ZOOPLANKTON SPECIES IN THE CONTEXT OF PLANKTIVOROUS SEABIRD PREDATORS IN THE ARCTIC – STEP TOWARDS TESTING MATCH/MISMATCH HYPOTHESIS

- 10:30 AM **Chara-Serna, A.**; Casper, A.: LONG TERM SPATIO-TEMPORAL DYNAMICS OF ZOOPLANKTON IN A LARGE FLOODPLAIN RIVER
- 10:45 AM **Gantz, C.**; Strecker, A.: USING LANDSCAPE GENETIC APPROACHES TO UNCOVER DISPERSAL AND GENETIC DIVERSITY PATTERNS IN A LARGE HYDROLOGIC PROJECT IN THE AMERICAN WEST

SSO97 AQUATIC INVASION ECOLOGY

- Chair(s): Jonathan B. Shurin, University of California-San Diego (jshurin@ucsd.edu)
- Location: Colwood 1&2
- 11:15 AM **Branstrator, D.**; TenEyck, M.; Etterson, M.; Reavie, E.; Cangelosi, A.: USING MESOCOSMS TO QUANTIFY RISK-RELEASE RELATIONSHIPS FOR INVASIVE SPECIES: IMPLICATIONS FOR SHIP BALLAST WATER STANDARDS
- 11:30 AM **Dexter, E.**; Bollens, S.; Hampton, S.; Katz, S.; Rollwagen-Bollens, G.: DISENTANGLING THE ECOLOGICAL INTERACTIONS AND ABIOTIC DRIVERS OF ZOOPLANKTON COMMUNITY DYNAMICS IN THE HEAVILY INVADED COLUMBIA RIVER ESTUARY.
- 11:45 AM **Petruzzella, A.**; Rodrigues, T.; van Leeuwen, C.; Esteves, F.; Barros, M.; Bakker, E.: DIVERSITY DOES MATTER: MECHANISMS OF INVASION RESISTANCE OF TROPICAL FRESHWATER PLANT COMMUNITIES
- 1:30 PM **Brown, M.**; Boscarino, B.; Buffington, K.; Razavi, R.; Cleckner, L.: BLOODY MURDER: FOOD WEB RESPONSES FOLLOWING THE ESTABLISHMENT OF AN AQUATIC INVASIVE SPECIES, THE BLOODY-RED SHRIMP, HEMIMYSIS ANOMALA
- 1:45 PM **Sanchez, M.**; Lovas-Kiss, A.; Martín, V.; Green, A.: AQUATIC INVASIONS AND THEIR INTERACTIONS WITH WATERBIRDS: INSIGHTS FROM HIGHLY INVASIVE CRAYFISH AND OTHER INVASIVE ORGANISMS
- 2:00 PM **Shurin, J.**; Aranguren-Riano, N.; Jones, N.; Pedroza-Ramos, A.: ECOSYSTEM IMPACTS OF THE WORLD'S LARGEST INVASIVE ANIMAL
- 2:15 PM **Brown, B.**; Bell, S.; Creed, R.: USING METACOMMUNITY THEORY TO UNDERSTAND INVASION OF SYMBIONTS WITH THEIR INVASIVE HOSTS
- 2:30 PM **Youngbull, C.**; Zane, L.; Ze, R.; McNeil, R.; Devlin, S.; Luikart, G.; Elser, J.: PORTABLE DIGITAL PCR FOR ONSITE DETECTION OF AQUATIC INVASIVE SPECIES
- 2:45 PM **Huete-Ortega, M.**; Davey, M.; Allen, M.; Sweet, J.; Smith, A.: ENVIRONMENTAL RISK ASSESSMENT OF NON-NATIVE AND GENETIC MODIFIED MICROALGAL CULTIVATIONS FOR BIOTECHNOLOGICAL APPLICATIONS
